SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS ISSUED UNDER SECTION 1(d)

The following marks have registered on the Principal Register pursuant to the intent-to-use provisions of Section 1(d) of the Trademark Act of 1946, as amended.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS AMENDED, CORRECTED, ETC.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Any change to the registration will be indicated at the bottom of each entry under ELEMENTS AMENDED, CORRECTED OR RESTRICTED. With the exception of changes to the goods and services, additions to the registration will appear in asterisks and deletions of the registration will appear in brackets. Elements which are only changed will be listed with no punctuation. As to the goods/services statement, amendments to the goods/services will appear in asterisks and deletions will appear in brackets. In addition if any change to the goods/services occurs, the element "Goods/Services" will be listed under ELEMENTS AMENDED, CORRECTED OR RESTRICTED.

Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d) provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on application filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(h), as amended effective Dec. 16, 1991. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the patent.

Attention is drawn to the patents which were issued on November 13, 1990 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,969,213 through 4,970,727
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on November 11, 1986 for which maintenance fees due at 7 years and

VOL 1156 ISS 3 NO 16 1993 UMI

six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,621,377 through 4,622,695
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on November 9, 1982 for which maintenance fees due at 11 years and six months may now be paid. the patents have patent numbers within the following ranges:

Utiility Patents 4,357,714 through 4,258,858
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

For patents based on applications filed on or after December 12, 1980, but before August 27, 1982, patent owners must establish small entity status according to 37 CFR 1.27 if they have not done so and if they wish to pay the small entity amount.

The current amounts of the maintenance fees due at 3 years and six months and 7 years and six months and 11 years and six months are set forth in 37 CFR 1.20(e) - (g), as amended Oct. 1, 1992, which are reproduced below:

37 CFR § 1.20 Post-issuance fees

(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after after Dec. 12, 1980 , in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§ 1.9(f)) $465.00
By other than a small entity $930.00

(f) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 in force beyond 8 years; the fee is due by seven years and six months after the original grant:

By a small entity (§ 1.9(f)) $935.00
By other than a small entity $1,870.00

(g) For maintaining an original or reissue patent except a design or plant patent, based on an application filed on or after Dec. 12, 1980, in force beyond 12 years; the fee is due by eleven years and six months after the original grant:

By a small entity(§ 1.9(f)) $1,410.00
By other than a small entity $2,820.00

The amounts of the surcharges for paying the maintenance fee during the grace period or after the expiration of the patent are set forth in 37 CFR 1.20(h), and (i), which are reproduced below:

(h) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months , seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980

By a small entity (§ 1.9(f)) $65.00
By other than a small entity $130.00

(i) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay is shown to the satisfaction of the Commissioner to have been

(1) unavoidable $620.00
(2) unintentional $1,500.00

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Notice of Expiration of Trademark Registrations Due to Failure to Renew

15 U.S.C. 1059 provides that each trademark registration may be renewed for periods of ten years from the end of the expiring period upon payment of the prescribed fee and the filing of an acceptable application for renewal. This may be done at any time within six months before the expiration of the period for which the registration was issued or renewed, or it may be done within three months after such expiration on payment of an additional fee.

According to the records of the Office, the trademark registrations listed below are expired due to failure to renew in accordance with 15 U.S.C. 1059.

Withdrawing the Holding of Abandonment When Office Actions Are Not Received

The purpose of this notice is to announce a practice that will minimize costs and burdens to the practitioner and the Office when an application has become abandoned due to a failure to receive an Office action.

A petition to withdraw the holding of abandonment in accordance with *Delgar Inc. v. Schuyler*, 172 USPQ 513 (D.D.C. 1971) is burdensome to the practitioner since the practitioner must overcome a strong presumption that an Office action duly addressed and indicated as mailed was timely delivered to the addressee. To overcome this presumption, a practitioner is currently required to submit a persuasive showing that would permit the Office to conclude that the Office action was not received. Accordingly, evidence which is typically required includes: copies of records which would disclose the receipt of other correspondence mailed from the Patent and Trademark Office on or about the mail date of the non-received Office action, but fail to disclose receipt of the Office action mailed that date; copies of records on which the Office action would have been entered had it been received (e.g., a copy of the outside of the file jacket maintained by the practitioner); and verified statements from persons who would have handled the Office action (e.g., mail clerks, docket clerks, secretary, etc.).

In order to minimize costs and burdens to the practitioner and the Office when an application has become abandoned due to a failure to receive an Office action, the Office is modifying the showing required to make a petition to withdraw the holding of abandonment grantable. The showing required to establish the failure to receive an Office actio must consist of a statement from the practitioner stating that the Office action was not received by the practitioner and attesting to the fact that a search of the file jacket and docket records indicates that the Office action was not received. A copy of the docket record where the non-received Office action would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement.

The showing outlined above may not be sufficient if there are circumstances that point to a conclusion that the Office action may have been lost after receipt rather than a conclusion that the Office action was lost in the mail, e.g., if the practitioner has a history of not receiving Office actions. Two additional procedures are available for reviving an application that has become abandoned due a failure to respond to an Office Action: (1) a petition based on unintentional abandonment or delay; and (2) a petition based on unavoidable delay. See Manual of Patent Examining Procedure §711.03(c).

Adverse Decisions in Interference

In the designated interferences involving the following patents, final decisions have been rendered that the respective patentees are not entitled to patents containing the claims listed.

Patent No. 4,564,054, Bengt Gustavsson, A FLUID TRANSFER SYSTEM, Interference No. 101,925, final judgment adverse to the patentee rendered June 10, 1993, as to claims 1, 2 and 11-17.

Patent No. 4,594,609, Nuno Romao, Ivica Mudrinic, SCRAMBLING SYSTEM FOR TELEVISION VIDEO SIGNAL, Inteference No. 101,653, final judgment adverse to the patentee rendered September 5, 1991, as to claims 1-145.

Patent No. 4,607,023, Gaetan Thibault, Raul Garcia, Marc Cantin, Nabil Seidah, Claude Lazure, Michel Chretien, NATRIURETIC, Interference No. 101,794, final judgment adverse to the patentee rendered September 28, 1993, as to claims 1-8.

Patent No. 4,663,437, Adolfo J. DeBold, ATRIAL NATRIURETIC PEPTIDE, Interference No. 101,794, final judgment adverse to the patentee rendered September 28, 1993, as to claim 1.

Patent No. 4,746,247, Edward J. Arlt, III, Frank J. Kovitch, Donald MacLachlan, Charles M. Reinhardt, STABILIZING RING FOR INTERLOCKING LOAD RING/BACK FLANGE INTERFACE, Interference No. 102,087, final judgment adverse to the patentee rendered December 16, 1991, as to claims 1-8.

Patent No. 4,780,305, Robert J. Steppe, DUAL COMBUSTION OXYGEN-ENRICHED CLAUS SULFUR PLANT, Interference No. 102,342, final judgment adverse to the patentee rendered June 14, 1993, as to claims 1-20.

Patent No. 4,783,543, William J. Schulz, Jr., John L. Speier, PROCESS TO PRODUCE SILYL KETENE ACETALS, Interference No. 103,171, final judgment adverse to the patentee rendered September 15, 1993, as to claims 1-23.

Patent No. 4,826,673, Richard T. Dean, Youlin Lin, Robert W. Weber, David H. White, METHODS AND COMPOSITIONS FOR ENHANCING MAGNETIC RESONANCE IMAGING, Interference No. 102,863, final judgment adverse to the patentee rendered September 23, 1993, as to claims 1-22.

Patent No. 4,869,748, Christopher G. Knudsen, CERTAIN 3-(SUBSTITUTED BENZOYL)-3:2:1-BICYCLOOCTAN-2,4-DIONES, Interference No. 102,799, final judgment adverse to the patentee rendered September 29, 1993, as to claims 1-30.

Patent No. 4,942,563, Mikio Yamamuro, SIGNAL PROCESSING APPARATUS AND METHOD CAPABLE OF PROVIDING PRECISE DIGITAL DATA, Interference No. 102,916, final judgment adverse to the patentee rendered September 15, 1993, as to claims 1-9.

Patent No. 5,007,765, John E. Dietlein, Russel P. Kamis, Peggy L. Dixon, SEALING METHOD FOR JOINTS, Interference No. 102,730, final judgment adverse to the patentee rendered September 30, 1993, as to claims 1-17.

Patent No. 5,030,613, Bruce Huai-Tzu, EPITAXIAL BA-Y-CU-O CERAMIC SUPERCONDUCTOR FILM ON PEROVSKITE STRUCTURE, Interference No. 102,834, final judgment adverse to the patentee rendered September 28, 1993, as to claims 1-11.

Patent Term Extended Under 35 USC § 156

An interim extension of the term of U.S. Patent No. 3,929,971 has been granted under 35 U.S.C. § 156 (e) (2) for a period of one year from the original expiration date of the patent. An application for patent term extension was filed by the patent owner of record Research Corporation Technologies, Inc. based on approval of the product "PRO OSTEON 500" by the Food and Drug Administration.

Miscellaneous Changes in Patent Practice

Agency: Patent and Trademark Office, Commerce.
Action:: Final Rule.
Summary : The Patent and Trademark Office (Office) is amending the rules of practice in patent cases to: expand the authority to sign a terminal disclaimer in a patent application or a disclaimer in a patent; eliminate some formal requirements for an appeal brief for an appellant appearing without counsel; prohibit fee extensions of time to file reply briefs and requests for oral hearing; clarify the requirements for claiming foreign priority; specify the manner in which the fee deficiency is computed when applicants seek to correct an error in claiming small entity status; and correct errors in published regulations.
Effective Date: Jan. 3, 1994. The time periods and extension of time provisions of §§ 1.193 and 1.194 for filing reply briefs and requests for oral hearing will be applicable where the examiner's answer was mailed on or after the effective date.
For Further Information Contact : Abraham Hershkovitz by telephone at (703) 305-9282, or by facsimile transmission at (703) 305-8825, or by mail marked to his attention and addressed to: Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231.
Supplementary Information : In a Notice of Proposed Rulemaking published in the Federal Register at 57 FR 43412 (September 21, 1992) and in the Patent and Trademark Office Official Gazette at 1143 Off. Gaz. Pat. Office 33-40 (October 13, 1992), the Office proposed to amend several rules of practice in patent and trademark cases. This rulemaking includes changes in § 1.9(d) which were not part of the proposed rules. The changes in § 1.9(d) were made in order to update the information pertaining to establishing small entity status as a small business. No substantive changes have been made in § 1.9(d). The proposed rule requiring that the specification of a design application describe the nature and intended use of the article being claimed has been withdrawn. Additionally, the proposed rule prohibiting a fee extension of time to file corrected drawings after allowance has been withdrawn.

Written comments were submitted by 13 firms, one association and one individual. An oral hearing was not conducted.

The following includes a discussion of the rules being changed and the reasons for those changes and an analysis of the comments received in response to the notice of proposed rulemaking.

Discussion of Specific Sections to be Changed or Added:

(1) Definitions (Section 1.9)

Section 1.9(d) is amended in order to update the information therein regarding the regulations of the Small Business Administration (SBA). The SBA's rule for defining a small business has been modified. Section 1.9(d) will no longer repeat the SBA rule in its entirety. Rather, § 1.9(d), as adopted, contains a short summary of the SBA definitions. The size limit of 500 employees (including those of its affiliates) for a small business concern has not been changed. Information on size standards for a small business concern may be obtained from the Small Business Administration by calling (202) 205-6618, or by writing to: Small Business Administration, Size Standards Staff, 409 Third Street, S.W., Washington, D.C. 20416.

(2) Copies of Papers (Section 1.13)

Section 1.13(a) is amended to clarify that the paragraph pertains to non-certified copies, and that copies of patents, trademark registrations and other papers within the jurisdiction of the Office, as opposed to being within the jurisdiction of another agency, may be obtained from the Office upon payment of the fee therefor.

Section 1.13(b) is amended to clarify that certified copies of the above items may be obtained from the Office upon payment of the fee for a certified copy.

(3) Patent Applications Preserved in Secrecy (Section 1.14)

Section 1.14(b) is amended to correct a typographical error in that the second and third sentences of this section were inadvertently deleted during an earlier revision of this section. See 50 Fed. Reg. 9378 (March 7, 1985) and 1053 Off. Gaz. Pat. Office 10-26 (April 2, 1985). Section 1.14(b) is amended by restoring the deleted sentences and by changing, in the first sentence, the plural "applicants" to the singular "applicant".

(4) Effect on Fees of Failure to Establish Status, or Change Status, as Small Entity (Section 1.28)

Section 1.28(c) is amended to reflect Office practice in calculating fee deficiencies when fees have been improperly paid as a small entity. The Office receives deficiency payments that differ based on varying interpretations of § 1.28(c). Some simply double the small entity fee in effect when the fee was originally paid in error in the small entity amount, while others compute the difference between the fee already paid and the other than small entity fee level in effect at the time the deficiency is paid. The Office requires payments to be based on fee levels in effect at the time the other than small entity fee is paid.

Since 1989, fee levels have been adjusted annually. In view of these adjustments, there are frequently situations where the fee amount has changed since it was originally paid erroneously at the small entity rate. Calculation of deficiency amounts based on fee levels in effect at the time the deficiency is paid conforms with the general concept that fees to be paid are those in effect at the time of receipt of the fees. Section 1.28(c) is amended to reflect this practice of calculating the amount of the deficiency based on the fee level in effect at the time of the deficiency payment.

(5) Claim for Foreign Priority (Section 1.55)

Section 1.55(a) is amended to incorporate the limitations of 35 U.S.C. 119, which provides that the claim for priority and the appropriate copy of the foreign application must be filed before the patent is granted. Additionally, some applicants did not realize that submission of priority papers after payment of the issue fee, but before the grant of the patent, required the filing of a petition to accept submission of priority papers after payment of the issue fee. After a patent is granted, applicants may still be able to establish priority benefits by filing a reissue application to correct the failure to perfect the claim for priority. *Brenner v. State of Israel*, 400 F.2d 789, 158 USPQ 584 (D.C. Cir. 1968). Section 1.55(a) lists separately those instances when priority documents must be filed prior to payment of the issue fee to receive the benefit of the filing date of a prior foreign application. Furthermore, § 1.55(a) is amended to clarify when a verified English language translation of priority application not in the English language must be filed and to require a statement from the translator that the translation of the priority document is accurate. *Krenitsky v. Utagawa*, 215 USPQ 713 (Comm'r Pat. 1981).

(6) Claiming Benefit of Earlier Filing Date and Cross References to other Applications (Section 1.78)

Section 1.78(a) is amended to correct a typographical error. In the reference to the fee in § 1.21(l), the letter (l) should have appeared instead of the numeral (1). Section 1.78(a) is further amended to be consistent with § 1.5(a), by permitting the identification of the prior application by application number or serial number and filing date.

(7) Prohibition of Fee Extensions of Time (Section 1.136(a))

Section 1.136(a) is amended by adding two additional situations in which applicants would no longer be able to use fee extensions. Section 1.136(a) is rearranged so that referenced sections appear in numerical order. The new prohibitions will apply to situations where the request to extend the time is: (1) to permit filing reply briefs under § 1.193(b); and (2) to permit filing requests for oral hearing under § 1.194(b) before the Board of Patent Appeals and Interferences (Board). Fee extensions of time to file reply briefs or requests for oral hearing delay transfer of jurisdiction of the appeal to the Board and unnecessarily delay final disposition of the appeal.

The Office has considered changing the practice to require payment of the fee and filing the request for an extension of time before the period set for response expires in the situations addressed in this rulemaking, but did not adopt that approach because of the complexity that it would introduce into the system.

Under the previous rules, applicants could request a maximum four-month extension of time under §1.136(a) to file reply briefs or request oral hearings. Since the backlog of cases awaiting a decision by the Board has been reduced, these extension requests have resulted in unnecessary delays in transmitting appeals to the Board and increased pendency of applications. The periods specified in §§ 1.193(b) and 1.194(b), as adopted, are considered sufficient to file a reply brief or request an oral hearing. Extensions of time for cause may be available under § 1.136(b). Therefore, § 1.136(a) is amended to prohibit fee extensions of time to file a reply brief or request an oral hearing.

(8) Appeal to the Board of Patent appeals and Interferences (Section 1.191)

Section 1.191(d) is amended to be consistent with the changes to § 1.136(a).

(9) Appellant's Brief (Section 1.192)

Sections 1.192(a) and (d) are amended by moving the last sentence of current § 1.192(d) to §1.192(a) to highlight that the Board may refuse consideration of any arguments or authorities not included in the brief.

Section 1.192(c) is amended to eliminate some of the formal requirements for an appeal brief for a pro se appellant, that is, an appellant appearing without counsel. An appellant appearing without counsel means there is no attorney or agent of record in the application or reexamination proceeding, the brief was not prepared by a registered practitioner, and the brief was not signed by a registered practitioner. Paragraph (c) is amended to allow a pro se appellant's brief to be accepted provided it is at least in substantial compliance with the requirements of subparagraphs (1), (2), (6) and (7) of paragraph (c). If a pro se appellant's brief is accepted, it will be presumed that a rejected group of claims stand or fall together unless an argument is included in the brief that presents reasons as to why appellant considers one or more claims in the rejected group of claims to be separately patentable from the other claims in the group.

(10) Examiner's Answer (Section 1.193)

Section 1.193(b) is amended to clarify the consequence of failure to file a reply brief in response to an expressly stated new

VOL

NO

1993
UMI

ground of rejection made in an examiner's answer. The failure to file a reply brief will result in dismissal of the appeal as to the claims made subject to the expressly stated new ground of rejection. If the dismissal of the appeal applies to all claims in the application, the application will be abandoned. Additionally, this section is amended to change the period for filing a reply brief to two months from the date of the examiner's answer, regardless of whether the examiner's answer includes a new ground of rejection. The change to two months will avoid confusion in those cases in which there is a disagreement as to whether the examiner's answer in fact states a new ground of rejection and will provide an adequate period of time to file a reply brief without the need to request an extension of time. Finally, this section is amended to be consistent with the changes to § 1.136(a).

(11) Oral Hearing (Section 1.194)

Section 1.194(b) is amended to be consistent with the changes to § 1.136(a). Under the previous rule, if a new ground of rejection was made in an examiner's answer, two months were permitted for filing a reply brief and, if a reply brief was filed, an applicant was permitted three months after the date of filing a reply brief to file a request for an oral hearing. In order to provide a more consistent approach vis-a-vis time periods for filing reply briefs and requests for oral hearing and to permit earlier decisions of issues on appeal, the period for filing a request for oral hearing has been changed to two (2) months from the date of an examiner's answer, regardless of whether the examiner's answer includes a new ground of rejection. This period should be sufficient to request an oral hearing without the need to request an extension of time.

(12) Decision by the Board of Patent Appeals and Interferences (Section 1.196)

Section 1.196(f) is amended to refer to § 1.550(c) for extensions of time in reexamination proceedings.

(13) Action Following Decision (Section 1.197)

Section 1.197(b) is amended to refer to § 1.550(c) for extensions of time in reexamination proceedings.

(14) Amendments After Allowance (Section 1.312)

Section 1.312(b) is amended to clarify that the fee required for a petition under this section is that specified in § 1.17(i)(1).

(15) Statutory Disclaimers, Including Terminal Disclaimers (Section 1.321).

The title of section 1.321 is amended to clarify that this section applies to terminal disclaimers, as well as to statutory disclaimers in general. Section 1.321 is further amended to permit the signing of a disclaimer in a patent by the patentee, or an attorney or agent of record, whereas, persons permitted to sign a disclaimer in a patent application will be any person specified in § 1.33(a)(1)-(4). The person signing the disclaimer must state the present extent of the disclaiming party's (i.e., patentee's or assignee's) interest in the patent or patent application. Naturally, a disclaimer signed on behalf of a party who no longer has an ownership interest in the patent or patent application cannot be accepted since 35 U.S.C. 253 requires a disclaimer to be signed by the owner of the whole or any sectional interest in the patent or patent application.

Section 253 of Title 35 of the United States Code states that disclaimer of any complete claim in a patent may be made by the patentee. Furthermore, any terminal part of the patent granted or to be granted may be disclaimed by the patentee, or applicant, respectively. It was the recent policy of the Office to accept disclaimers only if signed by the owner of record. This policy was too restrictive in that it precluded authorized patent practitioners from signing disclaimers. Furthermore, it was often difficult to ascertain whether the person signing was in fact an officer of the entity owning rights to the application. Accordingly, the rules as adopted, permit an attorney or agent of record to sign terminal disclaimers.

If the patent or patent application is assigned to an organization, such as a corporation, partnership, university, Government agency, or similar entity, and the disclaimer is signed by the assignee, the assignee must comply with § 3.73(b). See "Taking Action in a Patent Matter Before the Office by the Assignee under 37 CFR 3.73", at 1150 Off. Gaz. Pat. Office 62 (May 25, 1993). However, the rules, as adopted, permit an attorney or agent of record to sign a terminal disclaimer without the need to comply with § 3.73(b). Paragraph (a) of this section is further amended to refer only to disclaimers filed in patents. The Office does not record a disclaimer of part of a claim or claims. Hence, paragraph (a) of this section is amended to indicate that a disclaimer which does not disclaim a complete claim or claims will be refused recordation, rather than "may be refused recordation" as the rule read previously.

Paragraph (b) of this section is amended to refer only to terminal disclaimers filed in a patent application. Section 1.321(b) is also amended to include a reminder that the disclaimer is binding upon the grantee and its successors or assigns.

Paragraph (c) of this section incorporates the language of former paragraph (b) of this section concerning terminal disclaimers to obviate a double patenting rejection. This paragraph also includes reference to terminal disclaimers filed in reexamination proceedings for the same purpose.

(16) Publication of Notice of Proposed Amendments (Section 1.352(a))

Section 1.352(a) is amended to delete the language "and in other cases whenever practicable" so that the Office may engage in expedited rulemaking when publication of a notice of proposed amendments to regulations is not required by law.

(17) Time for Payment of Maintenance Fees (Section 1.362)

Section 1.362 is amended to clarify applicability and due dates for payment of maintenance fees. Paragraph (c)(3) of § 1.362 indicates that the actual filing date of a continuing application determines applicability of maintenance fees, while paragraph (c)(4) indicates that in the case of a reissue application, the filing date of the original non-reissue application determines applicability of maintenance fees. Some patentees and patent practitioners expressed confusion with respect to applicability of maintenance fees in the case of a continuing application of a reissue application. Uncertainty has been expressed as to whether this type of application would fall within paragraph (c) (3) or (c) (4). The amendment to § 1.362(c)(4) clarifies that continuing reissue application of a reissue application is subject to maintenance fees only if the original (non-reissue) patent would be subject to such fees. These amendments also remove any confusion that may have existed with regard to the due dates for payment of maintenance fees in reissued patents by adding § 1.362(h) to specify that the due dates for payment of maintenance fees in such reissued patents are computed from the date of grant of the original (non-reissue) patent. The due dates for payment of maintenance fees in a reissued patent are computed from the date of grant of the original (non-reissue) patent. Note the distinction between a continuing reissue application of a reissue application, and a regular continuing application of a reissue application as discussed *In re Bauman*, 683 F.2d 405, 214 USPQ 585 (CCPA 1982).

In a notice entitled "Revision of Patent and Trademark Fees" published in the Federal Register at 56 FR 65142 (December 13, 1991), the Office announced an amendment to its rules of practice. Included in that notice was a change to paragraph (e) of § 1.362 which was not intended. See 56 FR at 65146. The portion of paragraph (e) which was not intended to be amended is changed back to its earlier version.

(18) Request by Applicant for Interference With Patent (Section 1.6077)

Section 1.607(a)(5) (i) is amended to correct a typographical error in the spelling of the word "count".

(19) Export of Technical data (Section 5.19)

Section 5.19(a) is amended to correct the citations set forth in the rule and to update the name of the office in the Department of Commerce.

(20) Sharing legal fees (Section 10.48)

Section 10.48(b) is amended to correct a typographical error in the spelling of the word "deceased".

Response to Comments on the Rules

The comments received in response to the notice of proposed rulemaking have been given careful consideration and a number of the suggested modifications have been adopted. The comments and responses are discussed below.

Comment: One comment inquired as to why the phrase by "serial number and filing date" was used in § 1.78(a), where as the phrase "application number (consisting of the series code and serial number, e.g., 07/123,456), or the serial number and filing date" was used in § 1.5(a).

Response: The inconsistency has been removed by having section 1.78(a) changed to use terminology consistent with § 1.5(a).

Comment: A number of comments directed to § 1.85(c) expressed concern that applications would become abandoned as a result of the proposal that fee extensions of time under § 1.136(a) could not be obtained for filing corrected drawings.

Response: The proposal that fee extensions of time under § 1.136(a) not be permitted for filing corrected drawings has been withdrawn.

Comment: Regarding § 1.85(c), one comment recommended that the Notice of Draftman's Patent Drawing Review (PTOL-948) include seperate boxes for each drawing objection (e.g., a seperate box for each of "pale," "rough," "blurred," and "jagged"); that drafting personnel be better trained to more completely communicate the objection to any particular drawing; and that the Notice of Allowability indicate for which specific figure formal drawings are required.

Response: The proposed rule changed to § 1.85(c) has been withdrawn. Questions concerning the Notice of Draftman's Patent Drawing Review may be referred to the Official Draftman at (703) 305-8335, and questions concerning any requirement on a Notice of Allowability should be directed to the examiner.

Comment: Regarding §§ 1.153 and 1.154, a number of comments objected to the proposed requirement that the specification of a design application contain a statement of the nature and intended use of the article claimed.

Response: The proposed rule change regarding §§ 1.153 and 1.154 has been withdrawn. The Office will continue its current practice of mailing a request for information where the nature or intended use of the article is not evident in the application file.

Comment: Regarding § 1.153, one comment stated that the language of the proposed rule is unclear as to whether an abstract is required. The comment recommended that the Office should require an abstract and require it to provide the necessary information.

Response: As discussed above, the proposed rule change regarding §§ 1.153 and 1.154 has been withdrawn. The present rules do not require an Abstract. Suggestions concerning this issue may be directed to the Director of Examining Group 2900.

Comment: Regarding §§ 1.193(b) and 1.194(b), one comment opposed the elimination of fee extensions in the filing of reply briefs and requests for oral hearings, as one month, while often a sufficient time to file a reply brief, is insufficient where counsel must communicate with a patent department or foreign applicants, especially where there is a delay between the time the Office mails the communication and it is received by counsel.

Response: The period for filing a reply brief or request for oral hearing has been changed to two months from the date of the examiner's answer. The period was extended to two months in this rulemaking, as adopted, to provide appellants adequate time to take appropriate action, and to provide a uniform period in the rules to file a reply brief or request an oral hearing. Extensions of time for cause under § 1.136(b) will be available for those rare situations when an extension is necessary.

Comment: Regarding §§ 1.193(b) and 1.194(b), one comment opposed the elimination of fee extensions in the filing of reply briefs and requests for oral hearings, as a one-month period for response is insufficient for sole practitioners and persons who do not maintain offices for the sole purpose of responding to Office communications.

Response: As discussed above, the period for filing a reply brief or request for oral hearing has been changed to two months from the date of the examiner's answer. This two-month period should be an adequate period of time for filing a reply brief or a request for an oral hearing. Extensions of time for cause under § 1.136(b) will be available for those rare situations when an extension is necessary.

Comment: Regarding §§ 1.193(b) and 1.194(b), one comment deemed it reasonable and necessary that the Board have at its disposal all possible arguments. The refusal to enter a reply brief was characterized as an impediment to a decision based upon a complete record. Additionally, the comment argued that the refusal to enter a reply brief would result in attempts to enter the arguments under another guise, such as during oral argument or by filing a memorandum of oral argument.

Response: An appellant should present all arguments for patentability in the appeal brief. A reply brief should not be necessary to present a complete record, and would be inappropriate except in those case where the examiner has introduced a new point of argument or new ground of rejection in the examiner's answer.

Comment: Regarding §§ 1.193(b) and 1 194(b), one comment noted that fee extensions for filing reply briefs and requests for oral hearings do not create any more of a delay in the final disposition of an appeal than a fee extension for filing the Notice of Appeal or the brief in support of the appeal.

Response: The comment reflects a misunderstanding of the appeal process and the handling of applications in which an appeal has been filed. Under the existing rules before this rulemaking, appellants were able, with the maximum four-month fee extension, to file reply briefs or request oral hearings up to six months after an examiner's answer. As a result, appeals otherwise ready for a decision were either held in the examining group for that period of time before transmittal to the Board or when transmitted to the Board earlier, were occasionally acted upon by a Board panel before the reply briefs or requests for oral hearing were filed, requiring the Board to vacate its decision. As the backlog of appeals awaiting a decision by the Board has been reduced, retaining applications in the examining group has resulted in unnecessarily prolonging the pendency of applications. Under the rules as adopted, appellants are generally given more time (two months instead of one month) to file a reply brief or request an oral hearing, and the Office minimizes the delay necessary before transmitting the appeal to the Board for decision.

Comment: Regarding § 1.193(b), one comment stated that an appeal should not be dismissed for failure to file a reply brief to a new ground of rejection made in the examiner's answer, unless the examiner's answer expressly states that there is a new ground of rejection. The comment suggests that this rule should recite "If the examiner's answer *expressly* states a new ground of rejection *is being made....*"

Response: The proposal has been adopted to the extent that the final rule, as adopted, states "If the examiner's answer expressly states that it includes a new ground of rejection, appellant must file a reply thereto within two months from the date of such answer to avoid dismissal of the appeal as to the claims subject to the new ground of rejection."

Comment: Regarding § 1.193(b), one comment recommended that appellants should be given three months to respond to a new ground of rejection in an examiner's answer, as the current two-month time period is inadequate, and this period would be equal to the period given for response to rejections under § 1.106.

Response: This recommendation is not adopted. The Office experience has shown that the two-month period from the date of an examiner's answer has been an adequate period of time for filing a reply brief in response to a new ground of rejection. Also, it is desirable to set a uniform period of time in the rules to file a reply brief. Extensions of time for cause under § 1.136(b) will be available for those rare situations when an extension is necessary.

Comment: One comment recommended that appellants should be permitted to obtain fee extensions where the examiner's answer includes a new ground of rejection.

Response: This recommendation is not adopted. As indicated above, fee extensions for filing reply briefs have resulted in unnecessarily prolonging the pendency of applications. Extensions of time for cause under § 1.136(b) will be available for those rare situations when an extension is necessary.

Comment: Regarding §§ 1.193(b) and 1.194(b), one comment suggested that the rule be modified to permit the filing of a

VOL 1156 ISS 3 NO 16 1993 UMI

request for an oral hearing concurrently with a reply brief as one cannot appropriately determine the necessity for an oral hearing until a reply brief is drafted.

Response: Under the proposed rules, the time period for filing a request for an oral hearing was the later of one month from the date of an examiner's answer, or the date of filing a timely reply brief. Under the rules as adopted, an appellant has two months from the date of the examiner's answer to file a reply brief and request an oral hearing. Therefore, a request for oral hearing may be filed concurrently with a reply brief.

Comment: Regarding § 1.312, one comment recommended that amendments under § 1.312 be processed expeditiously, as the current system for the processing of such amendments is inadequate.

Response: Examiners are instructed to act promptly on all amendments under § 1.312. Any problems should be brought to the attention of the Group Director.

OTHER CONSIDERATIONS

The rule changes are in conformity with the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), Executive Orders 12291 and 12612 and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that these rule changes will not have a significant economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The principal impact of these changes is to permit persons other than the assignee of a patent application or patent to sign certain disclaimers, incorporate existing Office policy into the regulations and eliminate the opportunity to pay for extensions of time in certain situations where the extensions substantially interfere with the efficient operation of the Office.

The Office has determined that this rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers; individuals; industries; Federal, state or local government agencies; or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Office has also determined that this notice has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

These rule changes contain collection-of-information requirements subject to the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*, which has previously been approved by the Office of Management and Budget under Control No. 0651-0011. Public reporting burden for these collections of information is estimated to average 0.1 hours each for fee extensions of time under § 1.136(a), and 0.2 hours each for disclaimers under § 1.321, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding these burden estimates, or any other aspect of this collection of information, including suggestions for reducing the burden, to Abraham Hershkovitz, Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503 (ATTN: Paperwork Reduction Act Project No. 0651-0031).

For the reasons set out in the preamble, Parts 1, 5 and 10 of title 37 of the Code of Federal Regulations are amended as set forth below.

PART 1 - RULES OF PRACTICE IN PATENT CASES

1. The authority citation for 37 CFR Part 1 continues to read as follows:

Authority: 35 U.S.C. 6, unless otherwise noted.

2. Section 1.9, paragraph (d) is revised to read as follows:

§ 1.9 Definitions.

* * * * *

(d) A small business concern as used in this chapter means any business concern as defined by the regulations of the Small Business Administration in 13 CFR 121.1301 through 121.1305, which define a small business concern as one whose number of employees, including those of its affiliates, does not exceed 500 persons and which has not assigned, granted, conveyed, or licensed, and is under no obligation under contract or law to assign, grant, convey or license, any rights in the invention to any person who could not be classified as an independent inventor if that person had made the invention, or to any concern which would not qualify as a small business concern or a nonprofit organization under this section. Questions related to size standards for a small business concern may be directed to: Small Business Administration, Size Standards Staff, 409 Third Street, S.W., Washington, D.C. 20416.

3. Section 1.13 is revised to read as follows:

§ 1.13 Copies and certified copies.

(a) Non-certified copies of patents and trademark registrations and of any records, books, papers, or drawings within the jurisdiction of the Patent and Trademark Office and open to the public, will be furnished by the Patent and Trademark Office to any person, and copies of other records or papers will be furnished to persons entitled thereto, upon payment of the fee therefor.

(b) Certified copies of the patents and trademark registrations and of any records, books, papers, or drawings within the jurisdiction of the Patent and Trademark Office and open to the public or persons entitled thereto will be authenticated by the seal of the Patent and Trademark Office and certified by the Commissioner, or in his name attested by an officer of the Patent and Trademark Office authorized by the Commissioner, upon payment of the fee for the certified copy.

4. Section 1.14, paragraph (b) is revised to read as follows:

§1.14 Patent applications preserved in secrecy.

* * * * *

(b) Except as provided in § 1.11(b) abandoned applications are likewise not open to public inspection, except that if an application referred to in a U.S. patent, or in an application in which the applicant has filed an authorization to open the complete application to the public, is abandoned and is available, it may be inspected or copies obtained by any person on written request, without notice to the applicant. Complete applications (§ 1.51(a)) which are abandoned may be destroyed after 20 years from their filing date, except those to which particular attention has been called and which have been marked for preservation. Abandoned applications will not be returned.

5. Section 1.28, paragraph (c) is revised to read as follows:

§1.28 Effect on fees of failure to establish status, or change status, as a small entity.

* * * * *

(c) If status as a small entity is established in good faith, and fees as a small entity are paid in good faith, in any application or patent, and it is later discovered that such status as a small entity was established in error or that through error the Patent and Trademark Office was not notified of a change in status as required by paragraph (b) of this section, the error will be excused (1) if any deficiency between the amount paid and the amount due is paid within three months after the date the error occurred or (2) if any deficiency between the amount paid and the amount due is paid more than three months after the date the error occurred and the payment is accompanied by a statement explaining how the error in good faith occurred and how and when the error was discovered. The statement must be a verified statement if made by a person not registered to practice before the Patent and Trademark Office. The deficiency is based on the amount of the fee, for other than a small entity, in effect at the time the deficiency is paid in full.

6. Section 1.55, paragraph (a) is revised to read as follows:

§ 1.55 Claim for foreign priority.

(a) An applicant may claim the benefit of the filing date of a prior foreign application under the conditions specified in 35 U.S.C. 119 and 172. The claim to priority need be in no special form and may be made by the attorney or agent if the foreign application is referred to in the oath or declaration as required by § 1.63. The claim for priority and the certified copy of the foreign application specified in the second paragraph of 35 U.S.C. 119 must be filed:

(1) in the case of an interference (§ 1.630);

(2) when necessary to overcome the date of a reference relied upon by the examiner;

(3) when specifically required by the examiner; and

(4) in all cases, before the patent is granted. If the claim for priority or the certified copy of the foreign application is filed after the date the issue fee is paid, it must be accompanied by a petition requesting entry and by the fee set forth in § 1.17(i)(1). If the certified copy filed is not in the English language, a translation need not be filed except in the case of an interference; or when necessary to overcome the date of a reference relied upon by the examiner; or when specifically required by the examiner, in which event an English language translation must be filed together with a statement that the translation of the certified copy is accurate. The statement must be a verified statement if made by a person not registered to practice before the Patent and Trademark Office.

7. Section 1.78, paragraph (a) is revised to read as follows:

§ 1.78 Claiming benefit of earlier filing date and cross references to other applications.

(a)(1) An application may claim an invention disclosed in a prior filed copending national application or international application designating the United States of America. In order for an application to claim the benefit of a prior filed copending national application, the prior application must name as an inventor at least one inventor named in the later filed application and disclose the named inventor's invention claimed in at least one claim of the later filed application in the manner provided by the first paragraph of 35 U.S.C. 112. In addition, the prior application must be

(i) complete as set forth in § 1.51; or

(ii) entitled to a filing date as set forth in § 1.53(b) and include the basic filing fee set forth in § 1.16; or

(iii) entitled to a filing date as set forth in § 1.53(b) and have paid therein the processing and retention fee set forth in § 1.21 (1) within the time period set forth in § 1.53(d).

(a)(2) Any application claiming the benefit of a prior filed copending national or international application must contain or be amended to contain in the first sentence of the specification following the title a reference to such prior application, identifying it by application number (consisting of the series code and serial number), or serial number and filing date or international application number and international filing date and indicating the relationship of the applications. Cross-references to other related applications may be made when appropriate. (See § 1.14(b)).

8. Section 1.136, paragraph (a) is revised to read as follows:

§ 1.136 Filing of timely responses with petition and fee for extension of title for cause.

(a)(1) If an applicant is required to respond within a nonstatutory or shortened statutory time period, applicant may respond up to four months after the time period set if a petition for an extension of time and the fee set in § 1.17 are filed prior to or with the response, unless

(i) applicant is notified otherwise in an Office action,

(ii) the response is a reply brief submitted pursuant to § 1.193(b),

(iii) the response is a request for an oral hearing submitted pursuant to § 1.194(b),

(iv) response is to a decision by the Board of Patent Appeals and Interferences pursuant to §§ 1.196, 1.197 or 1.304,or

(v) the application is involved in an interference declared pursuant to § 1.611.)

(a)(2) The date on which the response, the petition, and the fee have been filed is the date of the response and also the date for purposes of determining the period of extension and the corresponding amount of the fee. The expiration of the time period is determined by the amount of the fee paid. In no case may an applicant respond later than the maximum time period set by statute, or be granted an extension of time under paragraph (b) of this section when the provisions of this paragraph are available. See § 1.136(b) for extensions of time relating to proceedings pursuant to §§ 1.193(b), 1.194, 1.196 or 1.197. See § 1.304 for extension of time to appeal to the U.S. Court of Appeals for the Federal Circuit or to commence a civil action. See § 1.550(c) for extension of time in reexamination proceedings and § 1.645 for extension of time in interference proceedings.

9. Section 1.191, paragraph (d) is revised to read as follows:

§ 1.191 Appeal to Board of Patent Appeals and Interferences.

* * * * *

(d) The time periods set forth in §§ 1.191 and 1.192 are subject to the provisions of § 1.136 for patent applications and § 1.550(c) for reexamination proceedings. The time periods set forth in §§ 1.193, 1.194, 1.196 and 1.197 are subject to the provisions of § 1.136(b) for patent applications or § 1.550(c) for reexamination proceedings. See § 1.304(a) for extensions of time for filing a notice of appeal to the U.S. Court of Appeals for the Federal Circuit or for commencing a civil action.

* * * * *

10. Section 1.192, paragraphs (a), (c) introductor text and (d) are revised to read as follows:

§1.192 Appellant's brief

(a) The appellant shall, within 2 months from the date of the notice of appeal under § 1.191 in an application, reissue application, or patent under reexamination, or within the time allowed for response to the action appealed from, if such time is later, file a brief in triplicate. The brief must be accompanied by the requisite fee set forth in § 1.17(f) and must set forth the authorities and arguments on which the appellant will rely to maintain the appeal. Any arguments or authorities not included in the brief may be refused consideration by the Board of Patent Appeals and Interferences.

(b) ***

(c) The brief shall contain the following items under appropriate headings and in the order here indicated unless there is no attorney or agent of record in the application or reexamination

proceeding, the brief was not prepared by a registered practitioner, and the brief was not signed by a registered practitioner, wherein the brief will be accepted as complying with this paragraph provided it is at least in substantial compliance with the requirements of paragraphs (1), (2),(6) and (7):

* * * * *

(d) If a brief is filed which does not comply with the requirements of paragraph (c) of this section, the appellant will be notified of the reasons for non-compliance and provided with a period of one month within which to file an amended brief. If the appellant does not file an amended brief during the one-month period, or files an amended brief which does not overcome all the reasons for non-compliance stated in the notification, the appeal will be dismissed.

11. Section 1.193, paragraph (b) is revised to read as follows:

§ 1.193 Examiner's answer.

* * * * *

(b) The appellant may file a reply brief directed only to such new points of argument as may be raised in the examiner's answer, within two months from the date of such answer. The new points of argument shall be specifically identified in the reply brief. If the examiner determines that the reply brief is not directed only to new points of argument raised in the examiner's answer, the examiner may refuse entry of the reply brief and will so notify the appellant. If the examiner's answer expressly states that it includes a new ground of rejection, appellant must file a reply thereto within two months from the date of such answer to avoid dismissal of the appeal as to the claims subject to the new ground of rejection; such reply may be accompanied by any amendment or material appropriate to the new ground. See §1.136(b) for extensions of time for filing a reply brief in a patent application and § 1.550(c) for extensions of time in a reexamination proceeding.

* * * * *

12. Section 1.194, paragraph (b) is revised to read as follows:

§1.194 Oral hearing.

* * * * *

(b) If appellant desires an oral hearing, appellant must file a written request for such hearing accompanied by the fee set forth in § 1.17(g) within two months after the date of the examiner's answer. If appellant requests an oral hearing and submits therewith the fee set forth in § 1.17(g), an oral argument may be presented by, or on behalf of, the primary examiner if considered desirable by either the primary examiner or the Board. See § 1.136(b) for extensions of time for requesting an oral hearing in patent application and § 1.550(c) for extensions of time in a reexamination proceeding.

* * * * *

13. Section 1.196, paragraph (f) is revised to read as follows:

§ 1.196 Decision by the Board of Patent Appeals and Interferences

* * * * *

(f) See 1.136(b) for extensions of time to take action under this section in a patent application and § 1.550(c) for extensions of time in a reexamination proceeding.

14. Section § 1.197, paragraph (b) is revised to read as follows:

§ 1.197 Action following decision.

* * * * *

(b) A single request for reconsideration or modification of the decision may be made if filed within one month from the date of the original decision, unless the original decision is so modified by the decision on reconsideration as to become, in effect, a new decision, and the Board of Patent Appeals and Interferences so states. The request for reconsideration shall state with particularity the points believed to have been misapprehended or overlooked in rendering the decision and also state all other grounds upon which reconsideration is sought. See § 1.136(b) for extensions of time for seeking reconsideration in a patent application and § 1.550(c) for extensions of time in a reexamination proceeding.

* * * * *

15. Section 1.312, paragraph (b) is revised to read as follows:

§ 1.312 Amendments after allowance.

* * * * *

(b) Any amendment pursuant to paragraph (a) of this section filed after the date the issue fee is paid must be accompanied by a petition including the fee set forth in § 1.17(i)(1) and a showing of good and sufficient reasons why the amendment is necessary and was not earlier presented.

16. Section 1.321 is revised to read as follows:

§ 1.321 Statutory Disclaimers, including Terminal Disclaimers.

(a) A patentee owning the whole or any sectional interest in a patent may disclaim any complete claim or claims in a patent. In like manner any patentee may disclaim or dedicate to the public the entire term, or any terminal part of the term, of the patent granted. Such disclaimer is binding upon the grantee and its successors or assigns. A notice of the disclaimer is published in the *Official Gazette* and attached to the printed copies of the specification. The disclaimer, to be recorded in the Patent and Trademark Office, must:

(1) be signed by the patentee, or an attorney or agent of record;
(2) identify the patent and complete claim or claims, or term being disclaimed. A disclaimer which is not a disclaimer of a complete claim or claims, or term will be refused recordation;
(3) state the present extent of patentee's ownership interest in the patent; and
(4) be accompanied by the fee set forth in § 1.20(d).

(b) An applicant or assignee may disclaim or dedicate to the public the entire term, or any terminal part of the term, of a patent to be granted. Such terminal disclaimer is binding upon the grantee and its successors or assigns. The terminal disclaimer, to be recorded in the Patent and Trademark Office, must:

(1) be signed:
(i) by the applicant, or
(ii) if there is an assignee of record of an undivided part interest, by the applicant and such assignee, or
(iii) if there is an assignee of record of the entire interest, by such assignee, or
(iv) by an attorney or agent of record;
(2) specify the portion of the term of the patent being disclaimed;
(3) state the present extent of applicant's or assignee's ownership interest in the patent to be granted; and
(4) be accompanied by the fee set forth in § 1.20(d).

(c) A terminal disclaimer, when filed to obviate a double patenting rejection in a patent application or in a reexamination proceeding, must:

(1) comply with the provisions of paragraphs (b)(2) through (b)(4) of this section;
(2) be signed in accordance with paragraph (b)(1) of this section if filed in a patent application, or in accordance with paragraph (a)(1) of this section if filed in a reexamination proceeding; and
(3) include a provision that any patent granted on that application or any patent subject to that reexamination proceeding shall be enforceable only for and during such period that said patent is commonly owned with the application or patent which formed the basis for the rejection.

17. Section 1.352 is amended by revising paragraph (a) to read as follows:

§ 1.352 Publication of notice of proposed amendments.

(a) Whenever required by law, notice of proposed amendments to the regulations in this part will be published in the *Official Gazette* and in the *FEDERAL REGISTER*. If not published with the notice, copies of the text will be furnished to any person requesting the same. All comments, suggestions, and briefs received within a time specified in the notice will be considered before adoption of the proposed amendments which may be modified in the light thereof.

(e) Maintenance fees may be paid with the surcharge set forth in § 1.20(h) during the respective grace periods after:

(1) 3 years and 6 months and through the day of the 4th anniversary of the grant for the first maintenance fee.
(2) 7 years and 6 months and through the day of the 8th anniversary of the grant for the second maintenance fee, and
(3) 11 years and 6 months and through the day of the 12th anniversary of the grant for the third maintenance fee.

PART 5 - CLASSIFIED INFORMATION, FOREIGN RELATIONS,INVENTIONS, AND PATENTS

20. The authority citation for 37 CFR Part 5 continues to read as follows:

Changes in Signature and Filing Requirements for Correspondence Filed in the Patent and Trademark Office

Agency : Patent and Trademark Office, Commerce.
Action: Final Rule.
Summary: The Patent and Trademark Office (Office) is amending the rules of practice in patent and trademark cases to: specify the types of correspondence which will no longer require original signatures; provide for facsimile transmission of certain correspondence to the Office; discontinue use of the drop boxes at Crystal Plaza Building 3 and at the Department of Commerce Building in Washington, D.C.; and clarify other provisions with respect to practice before the Office.
Effective Dates: Nov. 22, 1993. These rules will be applicable to all correspondence filed with the Office on or after the effective date.
For Further Information Contact: Abraham Hershkovitz by telephone at (703) 305-9282, by facsimile transmission at (703) 305-8825, or by mail marked to his attention and addressed to Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231.
Supplementary Information: In a Notice of Proposed Rulemaking published in the Federal Register at 57 FR 36034 (August 12, 1992) and in the Patent and Trademark Office Official Gazette at 1142 Off. Gaz. pat. Office 8-13 (September 1, 1992), the Office proposed to amend the rules of practice in patent and trademark cases to simplify the manner in which correspondence may be transmitted to the Office and clarify other provisions with respect to practice before the Office. This rulemaking includes changes to expand those situations where a party can use the Certificate of Mailing or Transmission procedure, and minor technical modifications in Part 2 of Title 37 of the Code of Federal Regulations which were not part of the proposed rulemaking.

Written comments were submitted by twenty-two law firms, five individuals, nine corporations, two organizations and three agencies. An oral hearing was not conducted.

The following includes a discussion of the rules being changed and the reasons for those changes, and an analysis of the comments received in response to the notice of proposed rulemaking.

Discussion of Specific Sections to be Changed or Added:

(1) Types of Correspondence No longer Requiring Original Signatures (Section 1.4)

Section 1.4 is amended to include a new paragraph (d) to specify that most correspondence filed in the Office, which requires a person's signature, may be an original, or a copy thereof. See §§ 1.4 (e) and (f) for types of correspondence where the original must be filed in the Office. The word original, as used in this rulemaking, is defined as correspondence which is personally signed in permanent ink by the person whose signature appears thereon. Where copies of correspondence are acceptable, photocopies or facsimile transmissions may be filed. For example, a photocopy or facsimile transmission of an original of an amendment, declaration, petition, issue fee transmittal form, authorization to charge a deposit account, etc., may be submitted in a patent or trademark application. Furthermore, where copies are permitted, second and further generation copies (i.e., copy of a copy) are acceptable. The original, if not submitted to the Office, should be retained as evidence of proper execution in the event that questions arise as to the authenticity of the signature reproduced on the photocopy or facsimile-transmitted correspondence. If a question of authenticity arises, the Office may require submission of the original.

Section 1.4(e) identifies types of correspondence in which an original must be submitted to the Office. Where an original is required, copies are not acceptable and will not be accorded a receipt date. Correspondence, as referred to in this section, includes application forms for registration to practice before the Office and data sheets for the register of patent attorneys and agents.

Section 1.4(f) provides that when a document that is required by statute to be certified must be filed (such as a certified copy of a foreign patent application, pursuant to 35 U.S.C. 119; a certified copy of an international application, pursuant to 35 U.S.C. 365; a certified copy of a foreign trademark registration, pursuant to 15 U.S.C. 1126(e); a certified copy of a final court order, pursuant to 15 U.S.C. 1119; or a certified copy of a U.S. trademark registration), a copy of the certification, including a photocopy or facsimile transmission, will not be acceptable. The requirement for an original certification does not apply to certifications such as required under §§ 1.8, 1.10, 1.60, 1.97(e) and 3.73(b), since these certifications are not required by statute.

(2) Identification of Applications (Section 1.5)

Section 1.5(a) is amended to make reference to the certificate procedure under § 1.8 consistent with the new title for § 1.8.

(3) Receipt of Correspondence (Section 1.6)

A descriptive heading is added to each paragraph of § 1.6 to identify the content of that paragraph.

The phrase "correspondence" is used in § 1.6 since the terms "papers", "letters" and "fees" all fall within the generic definition of "correspondence".

Section 1.6(a) is amended to clarify that correspondence transmitted by facsimile on weekends or Federal holidays within the District of Columbia, will be accorded the next business day as the date of receipt.

Sections 1.6 (b) and (c) are amended to clarify that weekdays refer to any day except a Saturday, Sunday, or Federal holiday within the District of Columbia.

Section 1.6(c) is amended to delete reference to the box locations in the lobby of Crystal Plaza Building 3, Arlington, Virginia, and at the Department of Commerce Building in Washington, D.C. The use of the drop boxes was discontinued on April 21, 1992, and the hours of operation for the attorney's window were extended to midnight, the same hours the drop boxes were available. The public can now deposit correspondence with the Office and obtain an acknowledgment of receipt after normal business hours. See "Changes in How Papers May Be Filed in the Patent and Trademark Office", 1137 Off. Gaz. Pat. Office 7 (April 7, 1992).

Use of the drop boxes at Crystal Plaza Building 3 and Department of Commerce Building locations had caused problems for both the public and the Office. Occasionally, it had been difficult to determine the dates of actual deposit of correspondence in the boxes. On occasion, Office employees and/or members of the public had been denied access to the drop box at the Department of Commerce by building security guards due to a special event taking place at the Department. Additionally, there were instances of correspondence being found outside of the drop boxes (e.g., on the floor of the main lobby of the Department of Commerce Building, on the guard's desk, on a nearby table, etc.). As a result, on occasion, the Office lacked confidence in assigning correct dates of receipt to correspondence deposited in the boxes at Crystal Plaza Building 3 and at the Department of Commerce Building. Given these difficulties, and the fact that the necessity for these boxes has been greatly diminished as a result of the facsimile transmission and certificate of mailing procedures, § 1.6(c) is amended by deleting reference to the drop boxes at Crystal Plaza Building 3 and the Department of Commerce Building.

A new section 1.6(d) is added to specify the types of correspondence which may be transmitted by facsimile and former § 1.6(d) is revised to be consistent with § 1.8(b) and redesignated as § 1.6(e). The widespread use of facsimile transmission and the resulting time saved in correspondence between applicants and the Office prompted the Office to establish a trial program to accept facsimile transmission of certain correspondence. The policy on "Filing of Certain Papers and Authorizations to Charge Deposit Accounts by Facsimile Transmission" was published at 1096 Off. Gaz. Pat. Office 30 (November 15, 1988) and was supplemented in the notice "Filing of Certain Papers with the Board of Patent Appeals and Interferences by Facsimile Transmission" published at 1108 Off. Gaz. Pat. Office 15 (November 14, 1989). The policy on "Filing of Certain Trademark Papers and Authorizations to Charge Deposit Accounts by Facsimile Transmission" was published at 1123 Off. Gaz. TM. Office 18 (February 12, 1991). In light of the success of the trial program, a policy on acceptance of facsimile transmission is incorporated into § 1.6(d). The situations where transmission of correspondence by facsimile is permitted have been increased over those permissible under the trial program outlined above. The situations where transmissions by facsimile remain prohibited are identified in § 1.6(d)(1)-(9). Prohibitions cover situations where originals are required as specified in §§ 1.4 (e) and (f), and situations where accepting a facsimile transmission would be unduly burdensome on the Office. As a courtesy, the Office will attempt to notify senders whenever correspondence is sent to the Office by facsimile transmission that falls within one of these prohibitions. Senders are cautioned against submitting correspondence by facsimile transmission which is not permitted under § 1.6(d) since such correspondence will not be accorded a receipt date.

This final rulemaking expands the acceptability of facsimile transmission to certain patent interference proceedings, not included in the proposed rulemaking, to reflect the practice set forth at 1108 Off. Gaz. Pat. Office 15 (November 14, 1989).

Under § 1.6(d)(4) as adopted in this final rulemaking, drawings submitted under §§ 1.81, 1.83-1.85, 1.152, 1.165, 1.174, 1.437, 2.51, 2.52 or 2.72 may not be filed by facsimile in patent and trademark applications. The experience of the Office is that the quality of the drawings received by facsimile transmission is generally not sufficient to comply with the drawing requirements set forth in these rules. However, applicants may submit by facsimile transmission proposed drawing corrections for approval by the Office.

In trademark proceedings, the facsimile transmission of specimens in response to an Office action will be permitted. Facsimile-transmitted specimens must be legible in order to be accepted and examined as specimens.

The date of receipt accorded to any correspondence permitted to be sent by facsimile transmission is the date the complete transmission is received by an Office facsimile unit, unless the transmission is completed on a Saturday, Sunday, or Federal holiday within the District of Columbia. Correspondence for which transmission was completed on a Saturday, Sunday, or Federal holiday within the District of Columbia, will be accorded a receipt date of the next succeeding day which is not a Saturday, Sunday, or Federal holiday within the District of Columbia. For example, a facsimile transmission to the Office from California starting on a Friday at 8:45 p.m. Pacific time and taking 20 minutes, would be completed at 9:05 p.m. Pacific time. The complete transmission would be received in the Office around 12:05 a.m. Eastern time on Saturday. The receipt date accorded to the correspondence is the date of the following business day, which in this case, would be Monday (assuming that Monday was not a Federal holiday within the District of Columbia).

The following lists itemize types of correspondence which may not be filed by facsimile transmission, and, if submitted by facsimile, will not be accorded a date of receipt:

Correspondence Relative to Patents and Patent Applications Where Filing by Facsimile Transmission is Not permitted

(1) A document that is required by statute to be certified;
(2) A national patent application specification and drawing or other correspondence for the purpose of obtaining an application filing date;
(3) Drawings submitted under §§1.81, 1.83-1.85, 1.152, 1.165, 1.174, or 1.437;
(4) Correspondence in an interference which an examiner-in-chief orders to be filed by hand or "Express Mail";
(5) Agreements between parties to an interference under 35 U.S.C. 135(c);
(6) Correspondence to be filed in an interference proceeding which consists of a preliminary statement under §1.621; a transcript of a deposition under § 1.676 or of interrogatories, cross-interrogatories, or recorded answers under § 1.684(c); or an evidentiary record and exhibits under § 1.653;
(7) Correspondence to be filed in a patent application subject to a secrecy order under §§ 5.1-5.8 of this chapter and directly related to the secrecy order content of the application;
(8) An international application for patent;
(9) A copy of the international application and the basic national fee necessary to enter the national stage, as specified in § 1.494(b) or § 1.495(b);
(10) A request for reexamination under § 1.510.

Correspondence Relative to Trademark Registrations and Trademark Applications Where Filing by Facsimile Transmission is Not Permitted

(1) The filing of a trademark application;
(2) Drawings submitted under §§ 2.51, 2.52, or 2.72;
(3) An affidavit showing that a mark is still in use or containing an excuse for nonuse under section 8 (a) or (b) or section 12(c) of the Trademark Act, 15 U.S.C. 1058(a), 1058(b), 1062(c);
(4) An application for renewal of a registration under section 9 of the Trademark Act, 15 U.S.C. 1059;
(5) A petition to cancel a registration of a mark under section 14, subsection (1) Or (2) of the Trademark Act, 5 U.S.C. 1064;

(6) In an application under section 1(b) of the Trademark Act, 15 U.S.C. 1051(b), the filing of an amendment to allege use in commerce under section 1(c) of the Trademark Act, 15 U.S.C. 1051(c); or the filing of a statement of use under section 1(d)(1) of the Trademark Act, 15 U.S.C. 1051(d)(1);
(7) Requests for cancellation or amendment of a registration under section 7(e) of the Trademark Act 5 U.S.C. 1057(e); and certificates of registration surrendered for cancellation or amendment under section 7(e) of the Trademark Act, 15 U.S.C. 1057(e);
(8) Correspondence to be filed with the Trademark Trial and Appeal Board, except the notice of ex parte appeal.

Correspondence Relative to Practitioner Registrations, Investigations, and Disciplinary Proceedings Where Filing by Facsimile Transmission is Not Permitted

Correspondence requiring a person's signature and relating to:

(1) Registration to practice before the Patent and Trademark Office in patent cases;
(2) Enrollment and disciplinary investigations; or
(3) Disciplinary proceedings.
(4) Certificate of Mailing or Transmission Procedure (Section 1.8)

The title of § 1.8 is changed from Certificate of Mailing to Certificate of Mailing or Transmission so as to include facsimile transmission.

Section 1.8(a) prescribes procedures for the use of a certificate of mailing or transmission to file papers or fees in the Office by first class mail or by facsimile transmission. The description of the Certificate of Mailing or Transmission practice is set forth in § 1.8(a)(1), and the list of exceptions to the certificate practice is found in § 1.8(a)(2). The phrase "papers or fees" in § 1.8(a) is changed to "correspondence" since both "papers" and "fees" fall within the generic definition of "correspondence". Paragraphs (a) and (b) of § 1.8 are amended to include correspondence transmitted by facsimile. In the event that correspondence is filed by facsimile transmission, it is recommended that the sending facsimile machine generate a report confirming transmission for each transmission session. This report should be retained by the applicant, along with the correspondence used as the original, as evidence of content and date of transmission. Paragraph (a)(2) of § 1.8 is amended to include separate headings for correspondence which relate to patents, trademarks and disciplinary proceedings. The sequence of some of the paragraphs found in § 1.8(a)(2) has been changed in order to have those paragraphs listed under the appropriate heading. The ability to use the Certificate of Mailing or Transmission procedures has been expanded to the filing of an affidavit under section 15, subsection (3) of the Trademark Act, 15 U.S.C. 1065(3), the filing of a notice of election to proceed by civil action in an inter partes proceeding under 35 U.S.C. 141 or 15 U.S.C. 1071(a)(1), in response to another party's appeal to the Court of Appeals for the Federal Circuit, the filing of a notice and reasons of appeal under 35 U. S.C. 142 or a notice of appeal under 15 U.S.C. 1071(a)(2), and the filing of a statement under 42 U.S.C. 2182 or 42 U.S.C. 2457(c).

Paragraph (a)(2)(vi) of § 1.8 is redesignated as paragraph (a)(2)(x) and amended to refer to section 14(1) or 14(2) of the Trademark Act, 15 U.S.C. 1064, to conform with the numbering of the Trademark Law Revision Act of 1988. Other sections of paragraph (a)(2) of § 1.8 are amended to identify the types of correspondence which will not receive the benefit of a certificate of mailing or transmission.

Paragraph (b) of § 1.8 outlines procedures to be followed to document the timely filing of correspondence in accordance with § 1.8(a) where such correspondence is not received by the Office. The phrase "correspondence or fees" in § 1.8(b) is changed to "correspondence" since "fees" fall within the generic definition of "correspondence". Before adoption of this final rule, § 1.8(b) required that the party forwarding the correspondence or fee include a declaration, under §§ 1.68 or 2.20 of this chapter, attesting to the previous timely mailing or transmission. In order to be consistent with other sections in Parts 1 and 2 of this chapter, the practice under § 1.8(b) is amended to permit a practitioner, as defined in § 10.1(r), to submit a statement rather than an oath or declaration under §§ 1.68 or 2.20 of this chapter. New paragraph (c) of § 1.8 is added to explicitly provide for a requirement for additional evidence relating to the mailing or transmission of correspondence in accordance with paragraph (a) of this section. The Office may invoke this requirement when it is deemed appropriate to establish an actual date of mailing or transmission. See, e.g., *In re Klein*, 6 USPQ2d 1547 (Comm'r Pat. 1987), *aff'd sub nom. Klein v. Peterson*, 696 F. Supp. 695, 8 USPQ2d 1434 (D.D.C. 1988), *aff'd* 866 F.2d 412, 9 USPQ2d 1558 (Fed. Cir.), *cert. denied*, 490 U.S. 1091 (1989).

(5) Time for Appeal or Civil Action (Section 1.304)

In section 1.304. paragraphs (a) and (c) are amended to delete a statement that use of the certificate procedure under § 1.8 is prohibited so as to be consistent with changes to § 1.8. Also, a cross reference to 1.658 in paragraph (a) is clarified.

(6) Submission of Maintenance Fees (Section 1.366)

Section 1.366(b) is amended by deleting the words "of mailing" to conform with the new title for § 1.8.

(7) Filing Date of Application for Extension of Patent Term Section 1.741(a)

Section 1.741(a) is amended to conform with the new title for the certificate procedure under § 1.8.

(8) Appeal to Court and Civil Action (Section 2.145)

Sections 2.145(c)(3) and 2.145(d)(1) are amended to conform

VOL 1156 ISS 3 NO 16 1993 UMI

with the revised list of types of correspondence excluded from the certificate of mailing or transmission procedure set out in § 1.8. Formerly, the notice of election to proceed by civil action in an inter partes proceeding under 35 U.S.C. 141 or section 21(a)(1) of the Trademark Act, 15 U.S.C. 1071(a)(1), and the filing of notice and reasons of appeal under 35 U.S.C. 142 or a notice of appeal under section 21(a)(2) of the Trademark Act, 15 U.S.C. 1071(a)(2), were specifically excluded, under §§ 1.8(a)(2)(viii) and (ix), respectively, from the certificate of mailing procedure. Since these notices are no longer excluded under amended § 1.8(a)(2), sections 2.145(c)(3) and 2.145(d)(1) are amended to conform with § 1.8 by deleting the last sentence which provided that the certificate of mailing procedure was not available.

(9) Reconsideration of Affidavit or Declaration (Section 2.165)

Section 2.165(a)(1) is amended to refer to the new title for the certificate procedure under § 1.8 of this chapter.

(10) Signature and Certificate of Practitioner (Section 10.18)

Section 10.18 is modified to clarify signature requirements for correspondence signed by practitioners. The reference to § 1.4 of this chapter will make it apparent that copies, including photocopies or facsimile transmissions, of correspondence signed by practitioners will be accepted under appropriate circumstances.

(11) Misconduct (Section 10.23(c))

Section 10.23(c) is amended to refer to the new title for the certificate procedure under § 1.8 of this chapter.

Response to Comments on the Rules

The comments received in response to the notice of proposed rulemaking have been given careful consideration and a number of the suggested modifications have been adopted. The comments and responses are discussed below.

Comment: In order to clarify how the Office will treat a copy of a paper, one comment suggested changing the second sentence in proposed § 1.4(d) to indicate that, except as provided in §§1.4 (e) and (f), a copy would be treated by the Office as if the original had been filed.

Response: While the suggested language was not adopted, the rule was modified to clarify that, except as provided in §§ 1.4 (e) and (f), an original or a copy thereof may be filed. The rules as stated in this final rulemaking are clear that, where an original is not required, a paper filed will be treated in the same way regardless of whether it is an original or a copy.

Comment: Five comments objected to a perceived requirement in § 1.4(d) that the color of ink used for signing a paper be different from the printing on the paper.

Response: Proposed § 1.4(d) did not require that the color of ink used for signing a paper be different from the printing on the paper. The suggested use of different colors of ink is a preferred procedure for distinguishing between an original and a copy. However, in order to avoid further confusion, the suggestion that a different color of ink be used has been deleted.

Comment: One comment recommended that the issue of signature authenticity end upon issuance of a patent in order to reduce the need to keep files in storage for long periods of time and to remove the burden on applicants of having to retrieve files from storage.

Response: Once a patent issues, the Office is not likely to inquire into any matters related to signature authenticity of correspondence filed in that patent application. Nevertheless, on rare occasions, a question of signature authenticity might arise after issuance of a patent. Applicants must therefore make their own decisions as to how long to retain originals.

Comment: Two comments questioned the justification for proposed § 1.4(e) requiring originals to be submitted in international patent applications.

Response: Section 1.4(e), as adopted, does not prohibit the filing of photocopies in an international patent application. With regard to facsimile transmissions, Patent Cooperation Treaty (PCT) Rule 92.4, as revised on July 1, 1992, permits the filing by facsimile of certain correspondence related to an international patent application. However, as indicated in §§ 1.6(d)(3), 1.8(a)(2)(iv) and 1.8(a)(2)(vi), the filing by facsimile is not permitted in the following situations relative to international applications for patent: (1) the filing of an international application for patent and (2) the filing of a copy of the international application and the basic national fee necessary to enter the national stage, as specified in §§ 1.494(b) or 1.495(b).

Applicants are cautioned, however, that the Certificate of Mailing or Transmission provisions of § 1.8 do not apply to correspondence filed in an international application before the U.S. Receiving Office, the U.S. International Searching Authority, or the U.S. International Preliminary Examining Authority, regardless of whether the correspondence was filed by mail or facsimile transmission. See § 1.8(a)(2)(5).

Comment: One comment suggested that, in applications filed under § 1.60, the certification that the application and papers being filed are true copies of those filed in the parent application should be excluded from the original signature requirement.

Response: Filing of copies of statements under § 1.60 as well as certifications under §§ 1.8, 1.10, 1.97(e) and 3.73(b) will be permitted. The certified documents referred to in § 1.4(f) are those which are required to be certified by statute (e.g., certified documents under 35 U.S.C. 119).

Comment: One comment questioned whether routine papers could be photocopied with a practitioner's signature thereon with appropriate information being filled in later by another person.

Response: Section 10.18(a) states that the signature of a practitioner, on correspondence filed, constitutes a certificate that the correspondence has been read by the practitioner. Accordingly, the photocopying of papers with a practitioner's signature thereon and subsequently having appropriate information filled in by another person, is not authorized or permitted under the rules.

Comment: One comment questioned whether a docket clerk could use a signature stamp of a registered attorney on a transmittal letter.

Response: Section 10.18(a) states that correspondence filed by a practitioner must be personally signed by that practitioner. Accordingly, use of a signature stamp of a registered attorney by a docket clerk would not be permitted.

Comment: Two comments suggested that the facsimile transmission practice be further liberalized to permit scanned-in signatures to be affixed to facsimile or electronically transmitted correspondence. The personal, handwritten signature would be affixed on a copy of the transmitted correspondence which would be kept by the applicant or his or her representative.

Response: The Office is actively considering acceptance of electronically filed applications and papers related thereto. See "Electronic Filing of Patent and Trademark Applications" published at 57 FR 56537 (November 30, 1992) and 1145 Off. Gaz. Pat. Office 378 (December 22, 1992). Until an acceptable program is established, every paper, requiring a signature, filed in the Office, regardless of the manner in which it was transmitted, will have to be a paper which was signed by the person whose signature appears thereon, or be a copy thereof. Scanned signatures affixed to papers which were not personally signed will not be permitted at this time.

Comment: One comment indicated that proposed § 1.5(a) appeared to be contrary to PCT Article 27(1) in that it added the additional requirement not set forth in the PCT of requiring correspondence concerning an international application to identify the international application number.

Response: PCT Rule 92.1 requires any paper relating to an international application to identify the international application to which it relates. In order to ensure prompt and proper association of correspondence with the intended application file, it is essential to use the application number on all papers. The practice (which was not a new one added in this rulemaking) is a mere implementation of the requirement in PCT Rule 92.1 and is not contrary to PCT Article 27(1) as no additional requirement is being placed on applicants.

Comment: Two comments recommended an increase from two weeks to 30 days or one month in the period provided in § 1.5(a) for resubmission of correspondence.

Response: The two-week period provided in § 1.5(a) is to enable applicants to provide the necessary identifying data where such data was not provided during the original submission. This is intended to permit immediate resubmission and no additional time is deemed to be necessary. Extending this period to 30 days would unnecessarily delay prosecution of applications.

Comment: Section 1.5(a) suggests that all letters directed to the Office concerning applications for patents should also state "Patent Application". One comment suggested that § 1.5(a) be amended to replace the restrictive reference to a "Patent Application" to read "identifying the correspondence as relating to a patent application".

Response: In order to make it easier for Office employees handling incoming correspondence to direct mail, § 1.5(a) recommends that letters relating to a patent application should state "Patent Application". The suggestion in the comment was not adopted since uniformity in the reference to "Patent Application" is desirable. Furthermore, this suggested labeling is not a requirement as evidenced by the use of the word "should" rather than "must".

Comment: Section 1.5(a) states that "No correspondence relating to an application should be filed prior to when notification of the application number is received from the Patent and Trademark Office". One comment suggested that the phrase "notification of the application number" was not adequately defined as it was not clear if applicants had to wait for the official filing receipt before information disclosure statements or other papers could be filed.

Response: The phrase "notification of the application number" as used in § 1.5(a) includes any manner in which an applicant becomes aware of the application number. The phrase is purposely broad and is not limited to the mailing of an official filing receipt. Rather, it includes a return post card which has an application number stamped thereon. The reasoning behind the statement in § 1.5(a) that no correspondence should be filed prior to notification of the application number is that correspondence received without an application number is difficult to match with the appropriate file. Further defining the phrase "notification of the application number" in § 1.5(a) is not warranted.

Comment: One comment suggested defining a business day as Monday through Friday, except for Federal holidays in the District of Columbia.

Response: It is not clear which section the comment was directed to, but § 1.6 indicates that no correspondence will be received by the Office on Saturdays, Sundays or Federal holidays within the District of Columbia. Since the language has not created problems in the past, the suggestion will not be adopted.

Comment: Two comments suggested amending § 1.6(c) to indicate the hours

of operation of the "walk-up window".

Response: Specifying in the regulations the hours of operation of the "walk-up window" is unnecessary. The hours of operation have been published in Official Gazette announcements and if those hours are changed in the future, the new schedule will published. Should the hours of operation of the "walk-up window" be changed due to unforeseen circumstances (i.e., snow emergency, etc.), a sign will be posted at the "walk-up window" giving an alternate location to deposit correspondence for the Office.

Comment: Two comments requested that the Office reconsider and withdraw the proposal to eliminate the mail drop box at the guard's desk at the Department of Commerce Building in Washington, D. C.

Response: As indicated in the notice of proposed rulemaking, members of the public were occasionally denied access to the drop box at the Department of Commerce. Additionally, the Office lacked confidence in assigning correct dates of receipt to correspondence deposited in the box as a result of instances when correspondence was found outside of the drop box. Further, since there are many ways to file papers with the Office (i.e., certificate of mailing or transmission, Express Mail, facsimile transmission, longer hours at the "walk-up-window"), there is no need to maintain an off-site drop box.

Comment: One comment suggested that the Office publish phone numbers for facsimile machines at various locations, (i.e., Publishing Division, various examining groups, etc.), in order to enable the public to direct their transmissions to a particular location, rather than a central location.

Response: The suggestion has been adopted. See "Patent and Trademark Office (PTO) Information Contacts", 1149 Off. Gaz. Pat. Office 67 (April 27, 1993). The Office will publish in the Official Gazette periodic updates of this list.

Comment: Three comments advocated a further expansion of the facsimile transmission practice to permit transmission of any paper which did not require an original signature. According to the comment, it was difficult to understand why the Office would not permit facsimile transmission of certain papers directly to the Office, but would accept those same papers if transmitted by facsimile to a third party who then hand-delivered the papers to the Office.

Response: The only papers, not requiring an original signature or certification, which the Office will not accept by facsimile transmission are those which, for various reasons, would cause an undue burden on the Office. For example, papers submitted for the purpose of obtaining an application filing date are often rather voluminous, difficult to collate and would create inefficiencies in tying up the Office facsimile machines for long periods of time. In addition, there is a time and content criticality to papers filed for the purpose of obtaining a filing date which is not shared by other types of papers. Another example would be drawings submitted under §§ 1.81, 1.83-1.85, 1.152, 1.165, 1.174, 1.437, 2.51, 2.52, or 2.72. Experience has shown that the quality of drawings received by facsimile transmission would typically result in an objection by the Official Draftsman. Disputes might arise at that point as to whether the cause of the poor quality was applicant's transmitting unit or the receiving unit of the Office. Hence, the Office will continue to prohibit facsimile transmission of certain papers as specified in § 1.6(d).

Comment: Section 1.6(d) states that the receipt date accorded to a paper transmitted by facsimile will be the date on which the complete transmission is received in the Office. Three comments objected to this language by arguing that this practice discriminated against West Coast practitioners and gave an advantage to East Coast practitioners because the West Coast practitioners had only until 9 P.M. to complete a transmission in order to receive the benefit of that day's filing.

Response: The facsimile transmission practice is similar to regular mail practice. Thus, a West Coast practitioner depositing correspondence with the local postal service without a certificate of mailing will receive as a receipt date the date on which the Office receives the correspondence, rather than the date on which the correspondence was deposited. Similarly, a paper transmitted by facsimile will be accorded, as the date of receipt, the date on which the complete transmission was received in the Office, unless the date of receipt is a Saturday, Sunday, or Federal holiday within the District of Columbia, in which case, the date of receipt will be the next business day.

The certificate practice provided in § 1.8, on the other hand, permits the sender to indicate on the correspondence the date of mailing or transmission from the sender's perspective, which date would then be effective to meet a deadline set for response. Use of the certificate of mail or transmission is applicable to correspondence submitted by mail and correspondence transmitted by facsimile. If transmitted by facsimile, the person signing the certificate certifies the expectation that the transmission would be initiated before midnight, local time.

By way of example, a West Coast practitioner preparing a response on the last day of the period for response would have to use the § 1.8 certificate of mailing procedure or the § 1.10 Express Mail procedure, for the response to be considered timely, if the correspondence was sent by way of the U. S. Postal Service. If the practitioner chose to send the correspondence by facsimile on the last day for response and the transmission was started before 9:00 p.m. Pacific time, but was completed after 9:00 p.m. Pacific time, the Office would accord that correspondence a receipt date as of the next business day, which would be after the period for response expired because the Office would have received the correspondence after midnight Eastern time of the last day for response. However, if the practitioner affixed a certificate of transmission to the correspondence sent by facsimile transmission, indicating that the correspondence was being transmitted on the last day in the period for response, then the correspondence would be considered timely filed.

As another example, a transmission started before midnight, Pacific time, on the last day for response and having a certificate of transmission affixed thereto, would be considered timely filed even though the transmission was completed after midnight, Pacific time and was received in the Office the day after the deadline for response.

Comment: One comment suggested replacing "drawings" in § 1.6(d)(4) with "formal drawings" for clarity.

VOL 1156 ISS 3 NO 16 1993 UMI

Response: The suggestion has not been adopted because the phrase "formal drawings" does not find support or antecedent basis in sections referred to in § 1.6(d)(4).

Comment: One comment objected to the perceived requirement for a certificate of transmission in order for a facsimile-transmitted document to be accorded a date of receipt.

Response: The receipt date accorded to correspondence eligible for facsimile transmission, whether containing a certificate of transmission or not, will be the date of receipt in the Office of the complete transmission (unless that date is a Saturday, Sunday, or Federal holiday within the District of Columbia, in which case the date accorded will be the next business day). The certificate of transmission, if used, is for purposes of establishing timely filing if the correspondence is transmitted within the period for response but is (1) received in the Office after expiration of the period for response, or (2) lost or (3) not received by the Office.

Comment: One comment requested clarification as to what constituted a "complete transmission" as used in § 1.6(d).

Response: The context in which the phrase "complete transmission" was used in § 1.6(d) was to indicate that the transmission was finished. For example, if page 1 of a ten-page facsimile transmission is received in the Office at 11:55 p.m. on a Tuesday and page 10 of that transmission is received at 12:05 a.m. Wednesday, the receipt date accorded to that correspondence will be the date of that Wednesday. (This example assumes that Wednesday is not a Federal holiday within the District of Columbia).

Comment: One comment questioned whether a confirmation in the sender's facsimile machine that the entire facsimile was received constituted sufficient proof that a transmission was complete.

Response: A confirmation by the sender's facsimile machine is evidence that a transmission was made. As such, the confirmation will be considered together with any other evidence presented when questions of filing by facsimile transmission arise. It is therefore suggested that a certificate of transmission be used to enable the sender to rely on the procedures set forth in § 1.8(b).

Comment: One comment requested clarification as to what constituted an incomplete, faulty or illegible facsimile. Also, if an incomplete transmission was sent near the end of the period for response, will the sender be able to rely on the date the facsimile was initially transmitted, or would the sender have to rely on § 1.137 to revive the application if it became abandoned?

Response: If an incomplete, faulty or illegible facsimile transmission is received, that correspondence will be treated by the Office in the same manner that a comparably incomplete, faulty or illegible piece of correspondence would be treated if the correspondence were hand-delivered or mailed to the Office. Whether the application would be held abandoned upon receipt of an incomplete facsimile transmission or whether an opportunity would be provided to complete the transmission will be decided on a case-by-case basis using the same standards that are currently used - for example, for incomplete responses to Office actions, see § 1.135(c).

Comment: One comment indicated that the proposed practice of not accepting papers related to international applications if transmitted by facsimile and the indication that papers transmitted by facsimile, when prohibited, may be disposed of is contrary to PCT practice wherein PCT expressly provides for facsimile transmission of such papers and when not acceptable, an opportunity to correct is provided.

Response: PCT does not mandate acceptance of facsimile transmissions; it merely authorizes their acceptance. See PCT Rule 92.4(h). Additionally, as indicated above, the suggestion that the Office permit facsimile transmission of correspondence relative to an already filed international application has been adopted to a large extent.

There is no provision in PCT to provide an opportunity for correction when correspondence is filed by facsimile in spite of a refusal by a national Office to accept that type of correspondence by facsimile. As with national applications, the Office will attempt to notify senders whenever a facsimile transmission received is of a type which the Office has not agreed to accept by facsimile. Senders are cautioned against submitting such correspondence by facsimile transmission since the correspondence will not be accorded a filing date or date of receipt in the Office.

Comment: One comment suggested changing the phrase "Certificate of Transfer" in § 1.8 to "Certificate of Transmittal" or "Certificate of Sending" because "transfer" typically implies transfer of ownership interest in patents or trademarks.

Response: While each phrase has its own advantages and drawbacks, the suggestion will not be adopted. Nevertheless, in order to avoid confusion, this rulemaking leaves the old "Certificate of Mailing" intact, while adding "or Transmission" to include correspondence filed by facsimile transmission.

Comment: In the notice of proposed rulemaking, it was recommended that the facsimile machine transmission report be retained by the sender along with the correspondence used as the original, as evidence of content and date of transfer. One comment indicated that the correspondence used as the original can only be retained using the older stand-alone type of facsimile machine, since there is no such physical document with the newer in-computer facsimile cards.

Response: Section 1.4(d)(2) provides for submission of copies, e.g., by facsimile, of originals as defined in § 1.4(d)(1). Section 1.4(d)(2) does not provide for transmission of unsigned correspondence from a computer. While § 1.4(d)(2) does not require the sender to retain the original, there may be occasions when the sender will have to document the date and content of a document previously filed by facsimile transmission. The recommendation made in the notice of proposed rulemaking will apply to any situation where a paper document served as the original from which a facsimile was transmitted. If a facsimile transmission by using a computer is desired, a paper copy of the document to be transmitted may be printed out, signed and retained by the sender as evidence of content of the document transmitted. Once signed, if filing of a copy is permitted, the document could be scanned into the computer and facsimile transmitted to the Office.

Comment: In proposed section 1.8(a)(1) published in the Federal Register, paragraphs (i) and (ii) were joined with the alternative "or" to indicate that correspondence could be filed by being deposited with the U. S. Postal Service or transmitted by facsimile. This same section was published in the Official Gazette, by having paragraphs (i) and (ii) joined with the connective "and". Numerous comments, received apparently from individuals who saw the proposed rules in the Official Gazette, objected to the requirement that, in order to receive benefits under § 1.8, correspondence transmitted by facsimile also had to be mailed.

Response: Section 1.8(a)(1) as published in the Federal Register was correct, while the version published in the Official Gazette contained a typographical error. Hence, §§ 1.8(a)(1)(i)(A) and (B), as adopted in this rulemaking, make clear that the certificate of mailing or transmission practice will be applicable to correspondence mailed *or* sent by facsimile. The Office discourages the practice of having the same papers submitted by both methods as this practice would result in unnecessary duplication of papers and processing requirements.

Comment: One comment indicated that since all facsimile transmissions include the date and time of the actual facsimile transmission, the Office should not require a certificate of transmission, in order to get the benefit of an earlier filing date under § 1.8(a), when correspondence is transmitted by facsimile. *R*

Response: The Office is concerned that some older machines may not print the date and time of the actual transmission. Furthermore, even on the new machines the date and time printed by the sending unit may not always be correct, particularly after a temporary electrical disconnection, change in time, etc. Hence, for purposes of being considered timely filed, if the sender wishes to obtain the benefits of a date earlier than the date the complete transmission is received in the Office, the correspondence must include a certification in accordance with § 1.8(a).

A suggested format for a Certificate of Mailing and a Certificate of Transmission under § 1.8, to be included with the correspondence, is reproduced below:

OTHER CONSIDERATIONS

The rule changes are in conformity with the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), Executive Orders 12291 and 12612 and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et Seq.*

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that these rule changes will not have a significant economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The principal impact of these changes is to incorporate existing Office policy into the regulations, permit the filing of certain correspondence without an original signature and permit the filing of certain correspondence by facsimile transmission.

The Office has determined that these rule changes are not major rules under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individuals, industries, Federal, state or local government agencies, or geographic regions because most of the changes reduce procedural burdens. There will be no significant effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Office has also determined that these changes have no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

These rule changes contain collection-of-information requirements subject to the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*, which have previously been approved by the Office of Management and Budget under Control Nos. 0651-0009 and 0651-0011. The public reporting burden for these collections of information for Certificates of Mailing or Transmission is estimated to average 0.1 hours each, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collections of information. Send comments regarding these burden estimates, or any other aspect of these collections of information, including suggestions for reducing the burden, to Abraham Hershkovitz, Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503 (ATTN: Paperwork Reduction Act Projects 0651-0009 and 0651-0011).

LIST OF SUBJECTS

37 CFR Part 1

Administrative practice and procedure, Freedom of information, Inventions and patents, Reporting and record keeping requirements.

37 CFR Part 2

Administrative practice and procedure, Courts, Lawyers, Trademarks.

37 CFR Part 10

Administrative practice and procedure, Conflicts of interest, Courts, Inventions and patents, Lawyers.

For the reasons set out in the preamble, and pursuant to the authority contained in 15 U.S.C. 1123 and 35 U.S.C. 6, parts 1, 2 and 10 of title 37 of the Code of Federal Regulations are amended as set forth below:

PART 1 - RULES OF PRACTICE IN PATENT CASES

1. The authority citation for 37 CFR Part 1 continues to read as follows:

Authority: 35 U.S.C. 6, unless otherwise noted.

2. In Section 1.4, the title is revised and paragraphs (d) through (f) are added to read as follows:

§1.4 Nature of correspondence and signature requirements.

*****

(d) Each piece of correspondence, except as provided in paragraphs (e) and (f) of this section, filed in a patent or trademark application, reexamination proceeding, patent or trademark interference proceeding, patent file or trademark registration file, trademark opposition proceeding, trademark cancellation proceeding, or trademark concurrent use proceeding, which requires a person's signature, must either:

(1) be an original, that is, have an original signature personally signed in permanent ink by that person; or

(2) be a copy, such as a photocopy or facsimile transmission (§ 1.6(d)), of an original. In the event that a copy of the original is filed, the original should be retained as evidence of authenticity. If a question of authenticity arises, the Patent and Trademark Office may require submission of the original.

(e) Correspondence requiring a person's signature and relating to registration to practice before the Patent and Trademark Office in patent cases, enrollment and disciplinary investigations, or disciplinary proceedings must be submitted with an original signature personally signed in permanent ink by that person.

(f) When a document that is required by statute to be certified must be filed, a copy, including a photocopy or facsimile transmission, of the certification is not acceptable.

3. Section 1.5(a) is revised to read as follows:

§1.5 Identification of application, patent or registration.

(a) No correspondence relating to an application should be filed prior to when notification of the application number is received from the Patent and Trademark Office. When a letter directed to the Patent and Trademark Office concerns a previously filed application for a patent, it must identify on the top page in a conspicuous location, the application number (consisting of the series code and the serial number, e.g., 07/123,456), or the serial number and filing date assigned to that application by the Patent and Trademark Office, or the international application number of the international application. Any correspondence not containing such identification will be returned to the sender where a return address is available. The returned correspondence will be accompanied with a cover letter which will indicate to the sender that if the returned correspondence is resubmitted to the Patent and Trademark Office within two

VOL 1156 ISS 3 NO 16 1993 UMI

weeks of the mail date on the cover letter, the original date of receipt of the correspondence will be considered by the Patent and Trademark Office as the date of receipt of the correspondence. Applicants may use either the Certificate of Mailing or Transmission procedure under § 1.8 or the Express Mail procedure under § 1.10 for resubmissions of returned correspondence if they desire to have the benefit of the date of deposit in the United States Postal Service. If the returned correspondence is not resubmitted within the two-week period, the date of receipt of resubmission will be considered to be the date of receipt of the correspondence. The two-week period to resubmit the returned correspondence will not be extended. If for some reason returned correspondence is resubmitted with proper identification later than two weeks after the return mailing by the Patent and Trademark Office, the resubmitted correspondence will be accepted but given its date of receipt. In addition to the application number, all letters directed to the Patent and Trademark Office concerning applications for patent should also state "PATENT APPLICATION," the name of the applicant, the title of the invention, the date of filing the same, and if known, the group art unit or other unit within the Patent and Trademark Office responsible for considering the letter and the name of the examiner or other person to which it has been assigned.

*****

4. Section 1.6, is revised, to read as follows:

§ 1.6 Receipt of correspondence.

(a) Date of receipt and Express Mail date of deposit. Correspondence received in the Patent and Trademark Office is stamped with the date of receipt except as follows:

(1) No correspondence is received in the Patent and Trademark Office on Saturdays, Sundays or Federal holidays within the District of Columbia;

(2) Correspondence filed in accordance with § 1.10 will be stamped with the date of deposit as "Express Mail" with the United States Postal Service unless the date of deposit is a Saturday, Sunday, or Federal holiday within the District of Columbia in which case the date stamped will be the next succeeding day which is not a Saturday, Sunday, or Federal holiday within the District of Columbia;

(3) Correspondence transmitted by facsimile to the Patent and Trademark Office will be stamped with the date on which the complete transmission is received in the Patent and Trademark Office unless that date is a Saturday, Sunday, or Federal holiday within the District of Columbia, in which case the date stamped will be the next succeeding day which is not a Saturday, Sunday, or Federal holiday within the District of Columbia.

(b) Patent and Trademark Office Post Office pouch. Mail placed in the Patent and Trademark Office pouch up to midnight on any day, except Saturdays, Sundays and Federal holidays within the District of Columbia, by the post office at Washington, D.C., serving the Patent and Trademark Office, is considered as having been received in the Patent and Trademark Office on the day it was so placed in the pouch by the U.S. Postal Service.

(c) Correspondence delivered by hand. In addition to being mailed, correspondence may be delivered by hand during hours the Office is open to receive correspondence.

(d) Facsimile transmission. Except in the cases enumerated below, correspondence, including authorizations to charge a deposit account, may be transmitted by facsimile. The receipt date accorded to the correspondence will be the date on which the complete transmission is received in the Patent and Trademark Office, unless that date is a Saturday, Sunday, or Federal holiday within the District of Columbia. See § 1.6(a)(3). To facilitate proper processing, each transmission session should be limited to correspondence to be filed in a single application or other proceeding before the Patent and Trademark Office. The application number of a patent or trademark application, the control number of a reexamination proceeding, the interference number of an interference proceeding, the patent number of a patent, or the registration number of a trademark should be entered as a part of the sender's identification on a facsimile cover sheet. Facsimile transmissions are not permitted and if submitted, will not be accorded a date of receipt, in the following situations:

(1) Correspondence as specified in § 1.4(e), requiring an original signature;

(2) Certified documents as specified in § 1.4(f);

(3) Correspondence which cannot receive the benefit of the certificate of mailing or transmission as specified in § 1.8(a)(2)(i) through (iv), (vi through xi) and (xiii);

(4) Drawings submitted under §§ 1.81, 1.83 through 1.85, 1.152, 1.165, 1.174, 1.437, 2.51, 2.52, or 2.72;

(5) A request for reexamination under § 1.510;

(6) Correspondence to be filed in a patent application subject to a secrecy order under §§ 5.1 through 5.8 of this chapter and directly related to the secrecy order content of the application;

(7) Requests for cancellation or amendment of a registration under section 7(e) of the Trademark Act, 15 U.S.C. 1057(e); and certificates of registration surrendered for cancellation or amendment under section 7(e) of the Trademark Act, 15 U.S.C. 1057(e);

(8) Correspondence to be filed with the Trademark Trial and Appeal Board, except the notice of ex parte appeal;

(9) Correspondence to be filed in an interference proceeding which consists of a preliminary statement under § 1.621; a transcript of a deposition under § 1.676 or of interrogatories, cross-interrogatories, or recorded answers under § 1.684(c); or an evidentiary record and exhibits under § 1.653.

(e) Interruptions in U.S. Postal Service.

If interruptions or emergencies in the United States Postal Service which have been so designated by the Commissioner occur, the Patent and Trademark Office will consider as filed on a particular date in the Office any correspondence which is:

(1) Promptly filed after the ending of the designated interruption or emergency; and

(2) Accompanied by a statement indicating that such correspondence would have been filed on that particular date if it were not for the designated interruption or emergency in the United States Postal Service. Such statement must be a verified statement if made by a person other than a practitioner as defined in § 10.1(r) of this chapter.

5. Section 1.8 is revised to read as follows:

§ 1.8 Certificate of mailing or transmission.

(a) Except in the cases enumerated in paragraph (a)(2) of this section, correspondence required to be filed in the Patent and Trademark Office within a set period of time will be considered as being timely filed if the procedure described in this section is followed. The actual date of receipt will be used for all other purposes.

(1) Correspondence will be considered as being timely filed if:

(i) the correspondence is mailed or transmitted prior to expiration of the set period of time by being:

(A) deposited with the U.S. Postal Service with sufficient postage as first class mail addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231; or

(B) transmitted by facsimile to the Patent and Trademark Office in accordance with § 1.6(d); and

(ii) the correspondence includes a certificate for each piece of correspondence stating the date of deposit or transmission. The person signing the certificate should have reasonable basis to expect that the correspondence would be mailed or transmitted on or before the date indicated.

(2) The procedure described in paragraph (a)(1) of this section does not apply to, and no benefit will be given to a Certificate of Mailing or Transmission on, the following:

(i) Relative to Patents and Patent Applications

A. The filing of a national patent application specification and drawing or other correspondence for the purpose of obtaining an application filing date;

B. The filing of correspondence in an interference which an examiner-in-chief orders to be filed by hand or "Express Mail";

C. The filing of agreements between parties to an interference under 35 U.S.C. 135(c);

D. The filing of an international application for patent;

E. The filing of correspondence in an international application before the U.S. Receiving Office, the U.S. International Searching Authority, or the U.S. International Preliminary Examining Authority;

F. The filing of a copy of the international application and the basic national fee necessary to enter the national stage, as specified in § 1.494(b) or § 1.495(b).

(ii) Relative to Trademark Registrations and Trademark Applications A. The filing of a trademark application;

B. The filing of an affidavit showing that a mark is still in use or containing an excuse for nonuse under section 8 (a) or (b) or section 12(c) of the Trademark Act, 15 U.S.C. 1058(a), 1058(b), 1062(c);

C. The filing of an application for renewal of a registration under section 9 of the Trademark Act, 15 U.S.C. 1059;

D. The filing of a petition to cancel a registration of a mark under section 14, subsection (1) or (2) of the Trademark Act, 15 U.S.C. 1064;

E. In an application under section 1(b) of the Trademark Act, 15 U.S.C. 1051(b), the filing of an amendment to allege use in commerce under section 1(c) of the Trademark Act, 15 U.S.C. 1051(c); or the filing of a statement of use under section 1(d)(1) of the Trademark Act, 15 U.S.C. 1051(d)(1);

F. In an application under section 1(b) of the Trademark Act, 15 U.S.C. 1051(b), the filing of a request under section 1(d)(2) of the Trademark Act, 15 U.S.C. 1051(d)(2), for an extension of time to file a statement of use under section 1(d)(1) of the Trademark Act, 15 U.S.C. 1051(d)(1).

(iii) Relative to Disciplinary Proceedings

A. Correspondence filed in connection with a disciplinary proceeding under Part 10 of this chapter.

B. Reserved.

(b) In the event that correspondence is considered timely filed by being mailed or transmitted in accordance with paragraph (a) of this section, but not received in the Patent and Trademark Office, and the application is held to be abandoned or the proceeding dismissed, terminated, or decided with prejudice, the correspondence will be considered timely if the party who forwarded such correspondence:

(1) informs the Office of the previous mailing or transmission of the correspondence promptly after becoming aware that the Office has no evidence of receipt of the correspondence,

(2) supplies an additional copy of the previously mailed or transmitted correspondence and certificate, and

(3) includes a statement which attests on a personal knowledge basis or to the satisfaction of the Commissioner to the previous timely mailing or transmission. Such statement must be a verified statement if made by a person other than a practitioner as defined in § 10.1(r) of this chapter. If the correspondence was sent by facsimile transmission, a copy of the sending unit's report confirming transmission may be used to support this statement.

(c) The Office may require additional evidence to determine if the correspondence was timely filed.

6. Section 1.304 paragraphs (a) and (c) are revised to read as follows:

§1.304 Time for appeal or civil action.

(a)(1) The time for filing the notice of appeal to the U.S. Court of Appeals for the Federal Circuit (§ 1.302) or for commencing a civil action (§ 1.303) is two months from the date of the decision of the Board of Patent Appeals and Interferences. If a request for reconsideration or modification of the decision is filed within the time period provided under § 1.197(b) or § 1.658(b), the time for filing an appeal or commencing a civil action shall expire two months after action on the request. In interferences, the time for filing a cross-appeal or cross-action expires:

(i) 14 days after service of the notice of appeal or the summons and complaint, or

(ii) Two months after the date of decision of the Board of Patent Appeals and Interferences, whichever is later.

(a)(2) The time periods set forth in this section are not subject to the provisions of §§ 1.136, 1.550(c) or § 1.645 (a) or (b). (a)(3) The Commissioner may extend the time for filing an appeal or commencing a civil action:

(i) For good cause shown if requested in writing before the expiration of the period for filing an appeal or commencing a civil action, or

(ii) Upon written request after the expiration of the period for filing an appeal or commencing a civil action upon a showing that the failure to act was the result of excusable neglect.

*****

(c) If a defeated party to an interference has taken an appeal to the U.S. Court of Appeals for the Federal Circuit and an adverse party has filed notice under 35 U.S.C. 141 electing to have all further proceedings conducted under 35 U.S.C. 146 (§ 1.303(c)), the time for filing a civil action thereafter is specified in 35 U.S.C. 141. The time for filing a cross-action expires 14 days after service of the summons and complaint.

7. Section 1.366(b) is revised to read as follows:

§ 1.366 Submission of maintenance fees.

*****

(b) A maintenance fee and any necessary surcharge submitted for a patent must be submitted in the amount due on the date the maintenance fee and any necessary surcharge are paid and may be paid in the manner set forth in § 1.23 or by an authorization to charge a deposit account established pursuant to § 1.25. Payment of a maintenance fee and any necessary surcharge or the authorization to charge a deposit account must be submitted within the periods set forth in § 1.362 (d), (e) or (f). Any payment or authorization of maintenance fees and surcharges filed at any other time will not be accepted and will not serve as a payment of the maintenance fee except insofar as a delayed payment of the maintenance fee is accepted by the Commissioner in an expired patent pursuant to a petition filed under § 1.378. Any authorization to charge a deposit account must authorize the immediate charging of the maintenance fee and any necessary surcharge to the deposit account. Payment of less than the required amount, payment in a manner other than that set forth in § 1.23, or the filing of an authorization to charge a deposit account having insufficient funds will not constitute payment of a maintenance fee or surcharge on a patent. The certificate procedures of either § 1.8 or § 1.10 may be utilized in paying maintenance fees and any necessary surcharges.

*****

8. Section 1.741, paragraph (a) is revised to read as follows:

§ 1.741 Filing date of application.

(a) The filing date of an application for extension of patent term is the date on which a complete application is received in the Patent and Trademark Office or filed pursuant to the "Certificate of Mailing or Transmission" provisions of 37 CFR 1.8 or "Express Mail" provisions of 37 CFR 1.10.

*****

PART 2- RULES OF PRACTICE IN TRADEMARK CASES

9. The authority citation for 37 CFR Part 2 continues to read as follows:

Authority: 15 U.S.C. 1123; 35 U.S.C. 6, unless otherwise noted.

10. Section 2.145 is amended by revising Paragraphs C(3) and D(1) to read as follows:

§ 2.145 Appeal to Court and Civil Action

*****

(c) ***

(3) Any adverse party to an appeal taken to the U.S. Court of Appeals for the Federal Circuit by a defeated party in an inter partes proceeding may file a notice with the Commissioner within twenty days after the filing of the defeated party's notice of appeal to the court (paragraph (b) of this section), electing to have all further proceedings conducted as provided in section 21(b) of the Act. The notice of election must be served as provided in § 2.119.

VOL 1156 ISS 3 NO 16 1993 UMI

*****

(d) Time for appeal or civil action.

(1) The time for filing the notice of appeal to the U.S. Court of Appeals for the Federal Circuit (paragraph (b) of this section), or for commencing a civil action (paragraph (c) of this section), is two months from the date of the decision of the Trademark Trial and Appeal Board or the Commissioner, as the case may be. If a request for rehearing or reconsideration or modification of the decision is filed within the time specified in §§ 2.127(b), 2.129(c) or § 2.144, or within any extension of time granted thereunder, the time for filing an appeal or commencing a civil action shall expire two months after action on the request. In inter partes cases, the time for filing a cross-action or a notice of a cross-appeal expires

(i) 14 days after service of the notice of appeal or the summons and complaint; or

(ii) two months from the date of the decision of the Trademark Trial and Appeal Board or the Commissioner, whichever is later.

*****

11. Section 2.165(a)(1) is revised to read as follows:

§ 2.165 Reconsideration of Affidavit or Declaration

(a)(1) If the affidavit or declaration filed pursuant to § 2.162 is insufficient or defective, the affidavit or declaration will be refused and the registrant will be notified of the reason. Reconsideration of the refusal may be requested within six months from the date of the mailing of the action. The request for reconsideration must state the grounds for the request. A supplemental or substitute affidavit or declaration required by section 8 of the Act of 1946 cannot be considered unless it is filed before the expiration of six years from the date of the registration or from the date of publication under section 12(c) of the Act. The "Certificate of Mailing or Transmission" procedure provided by § 1.8 does not apply to affidavits or declarations or to supplemental or substitute affidavits or declarations filed under section 8(a) or (b) of the Act, but the certificate by "Express Mail" procedure provided by § 1.10 does apply thereto.

PART 10- REPRESENTATION OF OTHERS BEFORE THE PATENT AND TRADEMARK OFFICE

12. The authority citation for 37 CFR Part 10 continues to read as follows:

Authority: 5 U.S.C. 500; 15 U.S.C. 1123; 35 U.S.C. 6, 31, 32 41.

13. Section 10.18, is revised to read as follows:

§ 10.18 Signature and certificate of practitioner.

(a) Except where a copy, including a photocopy or facsimile transmission, of a personally signed piece of correspondence is permitted to be filed pursuant to § 1.4 of this chapter, every piece of correspondence filed by a practitioner on behalf of himself or herself or representing an applicant or a party to a proceeding in the Patent and Trademark Office must bear an original signature personally signed in permanent ink by such practitioner except for correspondence which is required to be signed by the applicant or party. The signature of a practitioner on correspondence filed by the practitioner, regardless of whether the correspondence has an original signature or is a copy, including a photocopy or facsimile transmission, of correspondence bearing an original signature, constitutes a certificate that:

(1) The correspondence has been read by the practitioner;

(2) The filing of the correspondence is authorized;

(3) To the best of practitioner's knowledge, information, and belief, there is good ground to support the correspondence, including any allegations of improper conduct contained or alleged therein; and

(4) The correspondence is not interposed for delay.

(b) Any practitioner knowingly violating the provisions of this section is subject to disciplinary action. See § 10.23(c)(15).

14. Section 10.23, paragraph (c)(9), is revised to read as follows:

§ 10.23 Misconduct

*****

(c) ***

(9) Knowingly misusing a "Certificate of Mailing or Transmission" under § 1.8 of this chapter or a certificate of "Express Mail" under § 1.10 of this chapter.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS ISSUED UNDER SECTION 1(d)

The following marks have registered on the Principal Register pursuant to the intent-to-use provisions of Section 1(d) of the Trademark Act of 1946, as amended.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS CANCELED

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
